## Safety Data Sheet

### 1. Chemical product and company identification

**Product name** : PL Pesticides surrogate mix I (10mix)

**SDS code** : R1-17

**Company/undertaking identification** :

HAYASHI PURE CHEMICAL IND.,LTD.

Address : 3-2-12 Uchihiranomachi, Chuo-ku, Osaka, Osaka, Japan

Responsible department : Planning Group, Reagent & Chemical Product Department

Telephone : 06-6910-7305

E-mail : shiyaku\_kikaku@hpc-j.co.jp

URL : <https://www.hpc-j.co.jp/>

**Emergency number** : 06-6910-7305

### 2. Hazards identification

#### GHS classification

|  |  |                                 |                             |
|--|--|---------------------------------|-----------------------------|
| Physical hazards                                 | Desensitized explosives  | classification not possible     |                             |
|  | Explosives   | classification not possible     |                             |
|  | Flammable gases  | No classification               |                             |
|  | Aerosol  | classification not possible     |                             |
|  | Oxidizing gases  | No classification               |                             |
|  | Gases under pressure   | No classification               |                             |
|  | Flammable liquids  | Category 2                      |                             |
|  | Flammable solids   | No classification               |                             |
|  | Self-reactive substances and mixtures                                    | classification not possible     |                             |
|  | Pyrophoric liquids   | classification not possible     |                             |
|  | Pyrophoric solids  | No classification               |                             |
|  | Self-heating substances and mixtures                                     | classification not possible     |                             |
|  | Substances and mixtures which in contact with water emit flammable gases | classification not possible     |                             |
|  | Oxidizing liquids  | classification not possible     |                             |
|  | Oxidizing solids   | No classification               |                             |
|  | Organic peroxides  | classification not possible     |                             |
|  | Corrosive to metals  | classification not possible     |                             |
|  | Health hazards   | Acute toxicity (oral)           | classification not possible |
|  |  | Acute toxicity (dermal)         | classification not possible |
|  |  | Acute toxicity (inhalation:gas) | classification not possible |
| Acute toxicity (inhalation:vapors)               |  | classification not possible     |                             |
| Acute toxicity (inhalation:dust/mist)            |  | classification not possible     |                             |
| Skin corrosion/irritation                        |  | classification not possible     |                             |
| Serious eye damage/eye irritation                |  | Category 2B                     |                             |
| Respiratory sensitization                        |  | classification not possible     |                             |
| Skin sensitization                               |  | classification not possible     |                             |
| Germ cell mutagenicity                           |  | classification not possible     |                             |
| Carcinogenicity                                  | classification not possible  |                                 |                             |
| Reproductive toxicity                            | Category 2   |                                 |                             |
| Specific target organ toxicity (single exposure) | Category 3 (Respiratory tract irritation.)                               |                                 |                             |
| Specific target organ toxicity (single exposure) | Category 3 (Narcosis)  |                                 |                             |

|                       |   |  |
|-----------------------|---|--|
| Environmental hazards | Specific target organ toxicity (repeated exposure)        | Category 1 (digestive tract, central nervous system, respiratory system) |
|                       | Aspiration hazard   | classification not possible  |
|                       | Hazardous to the aquatic environment, short-term (acute)  | Category 1   |
|                       | Hazardous to the aquatic environment, long-term (chronic) | Category 2   |
|                       | Hazardous to the ozone layer                              | classification not possible  |

## Hazard pictograms (GHS JP)

GHS02

GHS07

GHS08

GHS09

## Signal word (GHS JP)

: Danger

## Hazard statements (GHS JP)

: Highly flammable liquid and vapor (H225)  
 Causes eye irritation (H320)  
 May cause respiratory irritation (H335)  
 May cause drowsiness or dizziness (H336)  
 Suspected of damaging fertility or the unborn child (H361)  
 Causes damage to organs (digestive tract, central nervous system, respiratory system) through prolonged or repeated exposure (H372)  
 Very toxic to aquatic life (H400)  
 Toxic to aquatic life with long lasting effects (H411)

## Precautionary statements (GHS JP)

## Prevention

: Obtain special instructions before use. (P201)  
 Do not handle until all safety precautions have been read and understood. (P202)  
 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. (P210)  
 Ground and bond container and receiving equipment. (P240)  
 Use explosion-proof electrical/ventilating/lighting equipment. (P241)  
 Use only non-sparking tools. (P242)  
 Take action to prevent static discharges. (P243)  
 Do not breathe dust/fume/gas/mist/vapors/spray. (P260)  
 Wash hands, forearms and face thoroughly after handling. (P264)  
 Do not eat, drink or smoke when using this product. (P270)  
 Use only outdoors or in a well-ventilated area. (P271)  
 Avoid release to the environment. (P273)  
 Wear protective gloves/protective clothing/eye protection/face protection. (P280)

## Response

: IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water. (P303+P361+P353)  
 IF INHALED: Remove person to fresh air and keep comfortable for breathing (P304+P340)  
 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. (P305+P351+P338)  
 IF exposed or concerned: Get medical advice/attention. (P308+P313)  
 Get medical advice/attention if you feel unwell. (P314)  
 If eye irritation persists: Get medical advice/attention. (P337+P313)  
 In case of fire: Use specify appropriate media to extinguish. (P370+P378)  
 Collect spillage. (P391)

## Storage

: Store in a well-ventilated place. Keep container tightly closed. (P403+P233)  
 Store in a well-ventilated place. Keep cool. (P403+P235)  
 Store locked up. (P405)

## Disposal

: Dispose of contents/container to hazardous or special waste collection point, in accordance with local, regional, national and/or international regulation. (P501)

### 3. Composition/information on ingredients

Distinction of substance or mixture : Mixture

| Name                    | Concentration or Concentration range | Formula  | Kanpo number |                             | CAS RN       |
|-------------------------|--------------------------------------|--|--------------|-----------------------------|--------------|
|                         |                                      |  | CSCL no      | ISHL no                     |              |
| Acetone                 | ≥98%                                 | (CH <sub>3</sub> ) <sub>2</sub> CO   | (2)-542      | Existing Chemical Substance | 67-64-1      |
| Diazinon-d10            | 20µg/mL                              | C <sub>12</sub> H <sub>11</sub> D <sub>10</sub> N <sub>2</sub> O <sub>3</sub> PS               | (5)-923      | Existing Chemical Substance | 100155-47-3  |
| Dichlorvos-d6 (DDVP-d6) | 20µg/mL                              | C <sub>4</sub> H <sub>4</sub> D <sub>6</sub> Cl <sub>2</sub> O <sub>4</sub> P                  | (2)-3224     | 2-(7)-181                   | 203645-53-8  |
| EPN-d5                  | 20µg/mL                              | C <sub>14</sub> H <sub>9</sub> D <sub>5</sub> N <sub>4</sub> O <sub>4</sub> PS                 | (3)-2617     | 4-(2)-17,4-(3)-17           | -            |
| Esfenvalerate-d7        | 20µg/mL                              | C <sub>25</sub> H <sub>15</sub> D <sub>7</sub> CINO <sub>3</sub>                               | -            | -                           | 66230-04-4   |
| Fenitrothion-d6         | 20µg/mL                              | C <sub>9</sub> D <sub>6</sub> H <sub>6</sub> N <sub>2</sub> O <sub>5</sub> PS                  | (3)-2616     | 4-(9)-232                   | 203645-59-4  |
| Isoxathion-d10          | 20µg/mL                              | C <sub>13</sub> H <sub>6</sub> D <sub>10</sub> N <sub>4</sub> O <sub>4</sub> PS                | -            | -                           | -            |
| Chlorpyrifos-d10        | 20µg/mL                              | C <sub>9</sub> H <sub>9</sub> D <sub>10</sub> Cl <sub>3</sub> N <sub>3</sub> O <sub>3</sub> PS | (5)-3724     | 8-(1)-1042                  | 285138-81-0  |

| Ethofenprox-d5          | 20µg/mL                              | C <sub>25</sub> H <sub>23</sub> D <sub>5</sub> O <sub>3</sub>                                  | (3)-3981     | 4-(14)-178                  | 1705649-55-3 |
| Diethofencarb-d7        | 20µg/mL                              | C <sub>14</sub> H <sub>14</sub> D <sub>7</sub> N <sub>4</sub> O <sub>4</sub>                   | -            | 4-(6)-321                   | -            |

The above concentration or concentration range are not product specification.

All percentages listed in the above concentration or concentration range are mass%, unless otherwise specified.

### 4. First aid measures

#### First aid measures

- First-aid measures after inhalation : Remove person to fresh air and keep comfortable for breathing.  
Get immediate medical advice/attention.
- First-aid measures after skin contact : Remove/Take off immediately all contaminated clothing.  
Gently wash with plenty of soap and water.  
Get immediate medical advice/attention.
- First-aid measures after eye contact : IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.  
Get immediate medical advice/attention.
- First-aid measures after ingestion : Do NOT induce vomiting.  
Rinse mouth.  
Get immediate medical advice/attention.

### 5. Fire fighting measures

- Suitable extinguishing media : Water spray, Alcohol-resistant foam, Dry powder, Carbon dioxide, Sand.
- Unsuitable extinguishing media : Do not use a heavy water stream.
- Fire hazard : Extremely flammable liquid and vapor.
- Explosion hazard : Danger of the steam explosion in indoor, outdoor, sewer.  
May induce explosion of containers by heating.
- Hazardous decomposition products in case of fire : In case of fire, product may produce irritative or toxic fumes/gases.
- Firefighting instructions : If ignited, for the initial fire-fighting, cut off combustion sources, extinguish fire at a stroke using appropriate fire-extinguishers.  
In the case of peripheral fire, quickly remove movable containers to safe places.  
If unable to be moved containers, sprinkle water to containers and surrounding equipment, etc. to cool.  
Even after extinguishing fire, thoroughly cool containers by using plenty of water.
- Protection during firefighting : Wear appropriate fire-resistant clothing including self contained-compressed air breathing apparatus.

## 6. Accidental release measures

### Personal Precautions, Protective Equipment and Emergency Procedures

- General measures : Before entering, ventilate the area.  
Do not let unauthorized persons come close to the area.  
Immediately place the leakage area in isolation, with taking proper distances for all directions.  
Wear appropriate personal protective devices to prevent inhalation and contact with eye, skin, and clothing, and never attempt to work on the lee.

### Environmental precautions

- Environmental precautions : Avoid release to the environment.  
Prevent entry to sewers and public waters.

### Methods and Equipment for Containment and Cleaning up

- Methods for cleaning up : Clean up any spills as soon as possible, using an absorbent material to collect it.  
Collect leaking and spilled liquid in sealable containers as far as possible.  
Wash out the spilled area with large amounts of water.

## 7. Handling and storage

### Handling

- Technical measures : Work with appropriate personal protective equipment to prevent inhalation or contact to eyes, skin, and clothing.  
Handle with care to prevent leakage, overflowing, or scattering, minimize generation of mist or vapor, and thoroughly ventilate.
- Precautions for safe handling : Do not eat, drink or smoke when using this product.  
Thoroughly wash your hands and gargle after handling.  
Ensure good ventilation of the work station.  
Do not contact, breathe or swallow.  
Take precautionary measures against static discharge.  
Use explosion-proof equipment.
- Prevents handling of incompatible substances or mixtures : Avoid prolonged or repeated exposure.

### Storage

- Storage conditions : Store locked up.  
Store in a well-ventilated place, away from direct sunlight. Keep container tightly closed and keep away from fire and heat sources.
- Material used in packaging/containers : Light shielding airtight container.
- Technical measures : Comply with applicable regulations.
- Storage temperature : Freeze: -20°C

## 8. Exposure controls / Personal protection equipment

| Acetone                    |                          |
|----------------------------|--------------------------|
| Japan administration level | 500ppm                   |
| Exposure limits (JSOH)     | 200ppm(470mg/m3)         |
| Exposure limits (ACGIH)    | TWA 250 ppm,STEL 500 ppm |

- Appropriate engineering controls : Cover up tightly the generation source at the handling place or install local exhaust equipment or overall ventilation equipment. Install safety showers and eye-fountains near a handling place. Clearly indicate the location.

### Protective equipment

- Respiratory protection : Gas mask for organic gases
- Hand protection : Impervious protective gloves
- Eye protection : Protective glasses (general glasses, glasses with side-shields, goggles)
- Skin and body protection : Impervious aprons, Impervious work clothing, Protective long boots

## 9. Physical and chemical properties

|   |  |
|---|--|
| Physical state                                  | : Liquid                                   |
| Appearance                                      | : Liquid                                   |
| Color   | : No data available                        |
| Odor  | : No data available                        |
| pH  | : No data available                        |
| Melting point                                   | : No data available                        |
| Freezing point                                  | : No data available                        |
| Boiling point                                   | : 57 °C (as acetone)                       |
| Flash point                                     | : -20 °C (as acetone, tag closed cup)      |
| Auto-ignition temperature                       | : No data available                        |
| Decomposition temperature                       | : No data available                        |
| Flammability (solid, gas)                       | : No data available                        |
| Vapor pressure                                  | : No data available                        |
| Relative density                                | : No data available                        |
| Density   | : 0.8 g/cm <sup>3</sup> (as acetone, 20°C) |
| Relative gas density                            | : No data available                        |
| Solubility                                      | : No data available                        |
| Partition coefficient n-octanol/water (Log Pow) | : No data available                        |
| Explosive limits (vol %)                        | : No data available                        |
| Viscosity, kinematic                            | : No data available                        |
| Particle characteristics                        | : No data available                        |

## 10. Stability and reactivity

|                                    |  |
|------------------------------------|--|
| Reactivity                         | : No data available  |
| Chemical stability                 | : Stable under normal handling conditions.   |
| Possibility of hazardous reactions | : Reacts with oxidants, reductants, and bases. When contacting with strong oxidants like acetic acid, nitric acid, and hydrogen peroxide, explosive peroxides can be generated. In the basic condition, reacting with chloroform and bromoform, the risk of fire and explosion can be caused. Corrodes the plastics. |
| Conditions to avoid                | : Sunlight, heat. Ignition sources such as spark, flame, and static charge. Contact with oxidants, reductants, bases, and chloroform and bromoform in the basic condition.   |
| Incompatible materials             | : Oxidants, Reductants, Bases, Chloroform and bromoform in the basic condition   |
| Hazardous decomposition products   | : No data available  |

## 11. Toxicological information

The information in this section is based on the "GHS Classification Results" by NITE.

| As a product                  |   |
|-------------------------------|---|
| Acute toxicity (oral)         | classification not possible   |
| Acute toxicity (dermal)       | classification not possible   |
| Acute toxicity (inhalation)   | vapors:classification not possible<br>Gases:classification not possible<br>dust, mist:classification not possible |
| Skin corrosion/irritation     | classification not possible   |
| Serious eye damage/irritation | Category 2B   |
| Respiratory sensitization     | classification not possible   |
| Skin sensitization            | classification not possible   |
| Germ cell mutagenicity        | classification not possible   |
| Carcinogenicity               | classification not possible   |
| Reproductive toxicity         | Category 2  |
| STOT-single exposure          | Category 3 (Respiratory tract irritation.) Category 3 (Narcosis)  |
| STOT-repeated exposure        | Category 1  |
| Aspiration hazard             | classification not possible   |

| <b>Acetone</b>                        |  |
|---------------------------------------|--|
| Acute toxicity (oral)                 | No classification  |
| Acute toxicity (dermal)               | No classification  |
| Acute toxicity (gas)                  | No classification  |
| Acute toxicity (vapour)               | No classification  |
| Acute toxicity (inhalation:dust/mist) | classification not possible                                      |
| Skin corrosion/irritation             | No classification  |
| Serious eye damage/irritation         | Category 2B  |
| Respiratory sensitization             | classification not possible                                      |
| Skin sensitization                    | No classification  |
| Germ cell mutagenicity                | classification not possible                                      |
| Carcinogenicity                       | classification not possible                                      |
| Reproductive toxicity                 | Category 2   |
| STOT-single exposure                  | Category 3 (Narcosis) Category 3 (Respiratory tract irritation.) |
| STOT-repeated exposure                | Category 1   |
| Aspiration hazard                     | classification not possible                                      |

## 12. Ecological information

The information in this section is based on the "GHS Classification Results" by NITE.

| <b>As a product</b>                                       |                             |
|---|-----------------------------|
| Hazardous to the aquatic environment, short-term (acute)  | Category 1                  |
| Hazardous to the aquatic environment, long-term (chronic) | Category 2                  |
| Persistence and degradability                             | No data available           |
| Bioaccumulative potential                                 | No data available           |
| Mobility in soil  | No data available           |
| Ozone   | classification not possible |
| <b>Acetone</b>  |                             |
| Hazardous to Aquatic Environment - Acute Hazard           | No classification           |
| Hazardous to Aquatic Environment - Chronic Hazard         | No classification           |
| Persistence and degradability                             | No data available           |
| Bioaccumulative potential                                 | No data available           |
| Mobility in soil  | No data available           |
| Hazardous to the ozone layer                              | No data available           |

## 13. Disposal considerations

- Ecology - waste materials : With the detail information of the waste, subcontract its disposal to a waste disposer authorized by a Prefectural Governor.
- Contaminated container and packaging : Empty the packaging completely prior to disposal.  
Empty containers should be taken for recycle, recovery or waste in accordance with local regulation.

## 14. Transport information

### International Regulations

#### Transport by sea(IMDG)

|                                   |                            |
|-----------------------------------|----------------------------|
| UN-No. (IMDG)                     | : 1993                     |
| Proper Shipping Name (IMDG)       | : FLAMMABLE LIQUID, N.O.S. |
| Packing group (IMDG)              | : II                       |
| Transport hazard class(es) (IMDG) | : 3                        |
| Hazard labels (IMDG)              | : 3                        |
| Class (IMDG)                      | : 3                        |
| Special provision (IMDG)          | : 274                      |
| Limited quantities (IMDG)         | : 1 L                      |
| Excepted quantities (IMDG)        | : E2                       |

Packing instructions (IMDG) : P001  
 IBC packing instructions (IMDG) : IBC02  
 Tank instructions (IMDG) : T7  
 Tank special provisions (IMDG) : TP1, TP28, TP8  
 Stowage category (IMDG) : B  
 MFAG-No : 127

**Air transport(IATA)**

UN-No. (IATA) : 1993  
 Proper Shipping Name (IATA) : Flammable liquid, n.o.s.  
 Packing group (IATA) : II  
 Transport hazard class(es) (IATA) : 3  
 Hazard labels (IATA) : 3  
 Class (IATA) : 3  
 PCA Excepted quantities (IATA) : E2  
 PCA Limited quantities (IATA) : Y341  
 PCA limited quantity max net quantity (IATA) : 1L  
 PCA packing instructions (IATA) : 353  
 PCA max net quantity (IATA) : 5L  
 CAO packing instructions (IATA) : 364  
 CAO max net quantity (IATA) : 60L  
 Special provision (IATA) : A3  
 ERG code (IATA) : 3H

**Marine pollutant** : Applicable

**Regulations in Japan**

Regulatory information by sea : Conform to the provisions of the Ship Safety Law.  
 Regulatory information by air : Conform to the provisions of the Civil Aeronautics Law.  
 MFAG-No : 127

**Special transport precautions** : When transporting, load containers so that they do not tip over, damage, drop or collapse. Make sure there is no leak in containers.

**15. Regulatory information****National law**

Chemical Substances Control Law : Priority Assessment Chemical Substances (Law Article 2, Para.5)  
 Industrial Safety and Health Law : Class 2 Organic Solvents etc. (Enforcement Order, Art., Appended Table 6-2, Ordinance on Prevention of Organic Solvent Poisoning, Art.1, Para.1, Item 4)  
 Working Environment Evaluation Standards, Administrative Control Levels (Law Art.65-2, Para.1)  
 Harmful Substances Whose Names Are to be Indicated on the Label (Law Art.57, Para.1, Enforcement Order Art.18 Item 1, Item 2, Attached Table No.9)  
 Dangerous Substances - Flammable Substance (Enforcement Order Attached Table 1 Item 4)  
 Notifiable Substances (Law Art.57-2, Enforcement Order Art.18-2 Item 1, Item 2, Attached Table No.9)  
 Acetone (Ordinance number : 17)  
 Substances on Special medical examination, Current handling workers (Act, Art.66, Para.2, Enforcement Order, Art.22 Item 1)  
 Japanese Poisonous and Deleterious Substances Control Law : Deleterious Substances (Designated Order Art.2)  
 Organic cyanide compounds and preparations containing it (except for following (1)-(169))  
 Preparations containing 1.5% or less of ethylparanitrophenylthionobenzene-phosphonate (EPN)  
 Preparations containing dimethyl-2,2-dichlorovinyl-phosphate (DDVP)  
 Water Pollution Prevention Law : Hazardous Substances (Act, Art.2, Enforcement Order Art.2, Ministerial Ordinance to Provide for Effluent Standards, Art.1)  
 Designated Chemical Substances (Law Article 2, Paragraph 4, Enforcement Order Article 3-3)  
 Narcotics and Psychotropics Control Act : Raw Materials (Law Art.2 (7), Attached Table Art.4)  
 Fire Service Law : Group 4 - Flammable liquids - 1st Class petroleums - soluble (Law Art.2 Para.7, Attached Table 1, Group 4)  
 Air Pollution Control Law : Hazardous Air Pollutants (Central Environment Council Report No. 9)  
 Volatile Organic Compounds (Law Art.2 Para.4) (MOE Official Notice to Prefectures)
