5. Fire fighting measures

Suitable extinguishing media	:	Water spray, Alcohol-resistant foam, Dry powder, Carbon dioxide, Sand.
Unsuitable extinguishing media	:	Do not use a heavy water stream.
Fire hazard	:	Highly flammable liquid and vapor.
Explosion hazard	:	Danger of the steam explosion in indoor, outdoor, sewer.
		May induce explosion of containers by heating.
Hazardous decomposition products in case of fire	:	In case of fire, product may produce irritative or toxic fumes/gases.

Firefighting instructions :	If ignited, for the initial fire-fighting, cut off combustion sources, extinguish fire at a stroke using appropriate fire-extinguishers.
	In the case of peripheral fire, quickly remove movable containers to safe places.
	If unable to be moved containers, sprinkle water to containers and surrounding equipment, etc. to cool.
	Even after extinguishing fire, thoroughly cool containers by using plenty of water.
Protection during firefighting :	Wear appropriate fire-resistant clothing including self contained- compressed air breathing apparatus.

6. Accidental release measures

Personal Precautions, Protective Equi	ipment and Emergency Procedures		
General measures :	Before entering, ventilate the area.		
	Do not let unauthorized persons come close to the area.		
	Immediately place the leakage area in isolation, with taking proper distances for all directions.		
	Wear appropriate personal protective devices to prevent inhalation and contact with eye, skin, and clothing, and never attempt to work on the lee.		
Environmental precautions			
Environmental precautions :	Avoid release to the environment.		
	Prevent entry to sewers and public waters.		
Methods and Equipment for Containm	nent and Cleaning up		
Methods for cleaning up :	Clean up any spills as soon as possible, using an absorbent material to collect it.		
	Collect leaking and spilled liquid in sealable containers as far as possible.		
	Wash out the spilled area with large amounts of water.		
	If possible, neutralize with slaked lime, soda ash, etc. before washing out.		
7 Handling and storage			

7. Handling and storage

Handling		
Technical measures	:	Work with appropriate personal protective equipment to prevent inhalation or contact to eyes, skin, and clothing.
		Handle with care to prevent leakage, overflowing, or scattering, minimize generation of mist or vapor, and thoroughly ventilate.
Precautions for safe handling		Do not eat, drink or smoke when using this product.
		Thoroughly wash your hands and gargle after handling.
		Ensure good ventilation of the work station.
		Do not contact, breathe or swallow.
		Take precautionary measures against static discharge.
		Use explosion-proof equipment.
Prevents handling of incompatible substances or mixtures	:	Avoid prolonged or repeated exposure.
Storage		
Storage conditions	:	Store locked up.
		Store in a well-ventilated place, away from direct sunlight. Keep container tightly closed and keep away from fire and heat sources.
		Store in corrosive resistant container with a resistant inner liner.
Material used in packaging/containers	:	Light shielding airtight container.
Technical measures	:	Comply with applicable regulations.
Storage temperature	:	Cool and dark place
