Firefighting instructions	:	If ignited, for the initial fire-fighting, cut off combustion sources, extinguish fire at a stroke using appropriate fire-extinguishers.
		In the case of peripheral fire, quickly remove movable containers to safe places.
		If unable to be moved containers, sprinkle water to containers and surrounding equipment, etc. to cool.
Protection during firefighting	:	Wear appropriate fire-resistant clothing including self contained- compressed air breathing apparatus.

6. Accidental release measures

Personal Precautions, Protective Equipment and Emergency Procedures				
General measures	:	Before entering, ventilate the area.		
		Do not let unauthorized persons come close to the area.		
		Immediately place the leakage area in isolation, with taking proper distances for all directions.		
		Wear appropriate personal protective devices to prevent inhalation and contact with eye, skin, and clothing, and never attempt to work on the lee.		
Environmental precautions				
Environmental precautions	:	Avoid release to the environment.		
		Prevent entry to sewers and public waters.		
Methods and Equipment for Conta	ainm	nent and Cleaning up		
Methods for cleaning up	:	Take care not to generate dust, sweep it up as much as possible, collect it in an empty container that can be sealed, and move it to a safe place.		
		Wash out the spilled area with large amounts of water.		
7. Handling and storage				
Handling				
Technical measures	:	Work with appropriate personal protective equipment to prevent inhalation or contact to eyes, skin, and clothing.		
		Handle with care to prevent leakage, overflowing, or scattering, minimize generation of mist or vapor, and thoroughly ventilate.
