

# Methylene blue trihydrate

Hayashi Pure Chemical Ind.,Ltd. Revision date: 4/1/2024

Date of issue: 2/16/2010

SDS code: B6-18

Version: 06

# Safety Data Sheet

# 1. Chemical product and company identification

| Product name<br>SDS code   | :<br>:     | Methylene blue trihydrate<br>B6-18   |
|--|------------|--|
| Company/undertaking<br>identification<br>HAYASHI PURE CHEMICAL<br>Address : 3-2-12 Uchihirano<br>Telephone : 06-6910-7305<br>E-mail : shiyaku_kikaku@hp<br>URL : https://www.hpc-j.co.jg | ma<br>c-j. | chi, Chuo-ku, Osaka, Osaka, Japan  |
| Emergency number   | :          | 06-6910-7305   |
| Recommended use  | :          | For research and experimental use only.  |
| Restrictions on use  | :          | Do not use on a human body or for animal medicines, foods, household products, cosmetics, etc. |

# 2. Hazards identification

#### GHS classification

| Physical hazards | Explosives   | No classification           |
|------------------|--|-----------------------------|
|                  | Flammable gases  | No classification           |
|                  | Aerosol  | No classification           |
|                  | Oxidizing gases  | No classification           |
|                  | Gases under pressure   | No classification           |
|                  | Flammable liquids  | No classification           |
|                  | Flammable solids   | classification not possible |
|                  | Self-reactive substances and mixtures  | No classification           |
|                  | Pyrophoric liquids   | No classification           |
|                  | Pyrophoric solids  | classification not possible |
|                  | Self-heating substances and mixtures   | classification not possible |
|                  | Substances and mixtures which in<br>contact with water emit flammable<br>gases | No classification           |
|                  | Oxidizing liquids  | No classification           |
|                  | Oxidizing solids   | No classification           |
|                  | Organic peroxides  | No classification           |
|                  | Corrosive to metals  | classification not possible |
|                  | Desensitized explosives  | classification not possible |
| Health hazards   | Acute toxicity (oral)  | Category 4                  |
|                  | Acute toxicity (dermal)  | classification not possible |
|                  | Acute toxicity (inhalation:gas)  | No classification           |
|                  | Acute toxicity (inhalation:vapors)   | classification not possible |
|                  | Acute toxicity (inhalation:dust/mist)  | classification not possible |
|                  | Skin corrosion/irritation  | classification not possible |
|                  | Serious eye damage/eye irritation  | classification not possible |
|                  | Respiratory sensitization  | classification not possible |
|                  | Skin sensitization   | classification not possible |
|                  | Germ cell mutagenicity   | No classification           |
|                  | Carcinogenicity  | classification not possible |
|                  | Reproductive toxicity  | Category 2                  |
|                  | Specific target organ toxicity (single exposure)                               | Category 1 (blood system)   |

Revision date: 4/1/2024

| Methylene blue trihydrate | ≧98.5%、≦100%        | C16H18CIN3S+3H2O | (5)-1995 | Existing<br>Chemical<br>Substance | 7220-79-3 |  |

The above concentration or concentration range are not product specification.

All percentages listed in the above concentration or concentration range are wt%, unless otherwise specified.

### 4. First aid measures

#### First aid measures

| First-aid measures after inhalation | : | Remove person to fresh air and keep comfortable for breathing. |
|-------------------------------------|---|--|
|                                     |   | Get immediate medical advice/attention.                        |
| First-aid measures after skin       | : | Remove/Take off immediately all contaminated clothing.         |
| contact                             |   | Gently wash with plenty of soap and water.                     |
|                                     |   | Get immediate medical advice/attention.                        |

| Hayashi Pure Chemical Ind.,Ltd.                  |   | Revision date: 4/1/2024  | Methylene blue trihydrate<br>SDS code: B6-18 Version: 06 |
|--|---|--|--|
| First-aid measures after eye contact             | : | IF IN EYES: Rinse cautiously with water f<br>contact lenses, if present and easy to do.          |  |
| First aid massures ofter ingestion               |   | Get immediate medical advice/attention.<br>Rinse mouth.  |  |
| First-aid measures after ingestion               | • | Get immediate medical advice/attention.  |  |
| 5. Fire fighting measures                        |   |  |  |
| Suitable extinguishing media                     | : | Use proper extinguishing media dependir  | ng on peripheral fire.                                   |
| Unsuitable extinguishing media                   | : | Do not use a heavy water stream.   |  |
| Hazardous decomposition products in case of fire | : | In case of fire, product may produce irrita  | tive or toxic fumes/gases.                               |
| Firefighting instructions                        | : | If ignited, for the initial fire-fighting, cut off fire at a stroke using appropriate fire-extir |  |
|  |   | In the case of peripheral fire, quickly remo   | ove movable containers to safe                           |
|  |   | If unable to be moved containers, sprinkle surrounding equipment, etc. to cool.                  | e water to containers and                                |
| Protection during firefighting                   | : | Wear appropriate fire-resistant clothing in<br>compressed air breathing apparatus.               | ncluding self contained-                                 |

| General measures  | :    | Before entering, ventilate the area.   |
|---|------|--|
|   |      | Do not let unauthorized persons come close to the area.  |
|   |      | Immediately place the leakage area in isolation, with taking proper distances for all directions.  |
|   |      | Wear appropriate personal protective devices to prevent inhalation and contact with eye, skin, and clothing, and never attempt to work on the lee. |
| Environmental precautions                                   |      |  |
| Environmental precautions                                   | :    | Avoid release to the environment.  |
|   |      | Prevent entry to sewers and public waters.   |
| Methods and Equipment for Cont                              | ainn | nent and Cleaning up   |
| Methods for cleaning up                                     | :    | Take care not to generate dust, sweep it up as much as possible, collect it in an empty container that can be sealed, and move it to a safe place. |
|   |      | Wash out the spilled area with large amounts of water.   |
|   |      |  |
| 7. Handling and storage                                     |      |  |
| Handling  |      |  |
| Technical measures  | :    | Work with appropriate personal protective equipment to prevent inhalation or contact to eyes, skin, and clothing.                                  |
|   |      | Handle with care to prevent leakage, overflowing, or scattering, minimize generation of mist or vapor, and thoroughly ventilate.                   |
| Precautions for safe handling                               | :    | Do not eat, drink or smoke when using this product.  |
|   |      | Thoroughly wash your hands and gargle after handling.  |
|   |      | Ensure good ventilation of the work station.   |
|   |      | Do not contact, breathe or swallow.  |
| Prevents handling of incompatible<br>substances or mixtures | :    | Avoid prolonged or repeated exposure.  |
| Storage   |      |  |
| Storage conditions  | :    | Store locked up.   |
|   |      | Store in a well-ventilated place, away from direct sunlight. Keep container tightly closed and keep away from fire and heat sources.               |
| Material used in<br>packaging/containers                    | :    | Light shielding airtight container.  |
| Technical measures  | :    | Comply with applicable regulations.  |
| Storage temperature   | :    | Cool and dark place  |
|   |      |  |

### 8. Exposure controls / Personal protection equipment

| Appropriate engineering controls | : Cover up tightly the generation source at the handling place or install local exhaust equipment or overall ventilation equipment. Install safety showers and eye-fountains near a handling place. Clearly indicate the location. |
|----------------------------------|--|
| Protective equipment             |  |
| Respiratory protection           | : Dustproof mask   |
| Hand protection                  | : Impervious protective gloves   |
| Eye protection                   | : Protective glasses (general glasses, glasses with side-shields, goggles)   |
| Skin and body protection         | : Impervious aprons, Impervious work clothing, Impervious long boots   |
|                                  |  |

## 9. Physical and chemical properties

| Physical state                                      | : | Solid   |
|---|---|---|
| Appearance  | : | Crystals ~ Crystalline powder   |
| Color   | : | dark green  |
| Odor  | : | Odorless  |
| рН  | : | No data available   |
| Melting point                                       | : | No data available   |
| Freezing point                                      | : | No data available   |
| Boiling point                                       | : | No data available   |
| Flash point   | : | No data available   |
| Auto-ignition temperature                           | : | No data available   |
| Decomposition temperature                           | : | No data available   |
| Flammability  | : | No data available   |
| Vapor pressure                                      | : | No data available   |
| Relative density                                    | : | No data available   |
| Density   | : | No data available   |
| Relative gas density                                | : | No data available   |
| Solubility  | : | Sparingly soluble in water. Soluble in ethanol. Sparingly soluble in diethyl ether. |
| Partition coefficient n-<br>octanol/water (Log Pow) | : | No data available   |
| Explosive limits (vol %)                            | : | No data available   |
| Viscosity, kinematic                                | : | No data available   |
| Particle characteristics                            | : | No data available   |
|   |   |   |

# **10. Stability and reactivity**

| Reactivity                          | : | No data available                                     |
|-------------------------------------|---|---|
| Chemical stability                  | : | Stable under normal handling conditions.              |
| Possibility of hazardous reactions  | : | May react with strong oxidizing agents.               |
| Conditions to avoid                 | : | Sunlight, heat. Contact with strong oxidizing agents. |
| Incompatible materials              | : | Strong oxidizing agents                               |
| Hazardous decomposition<br>products | : | Nitrogen oxides, Sulfur oxides, Chlorine compounds    |

## 11. Toxicological information

The information in this section is based on the "GHS Classification Results" by NITE.

| Methylene blue                        |                             |
|---------------------------------------|-----------------------------|
| Acute toxicity (oral)                 | Category 4                  |
| Acute toxicity (dermal)               | classification not possible |
| Acute toxicity (gas)                  | No classification           |
| Acute toxicity (vapour)               | classification not possible |
| Acute toxicity (inhalation:dust/mist) | classification not possible |
| Skin corrosion/irritation             | classification not possible |
| Serious eye damage/irritation         | classification not possible |
| Respiratory sensitization             | classification not possible |

| Methylene blue         |                             |  |  |  |
|------------------------|-----------------------------|--|--|--|
| Skin sensitization     | classification not possible |  |  |  |
| Germ cell mutagenicity | No classification           |  |  |  |
| Carcinogenicity        | classification not possible |  |  |  |
| Reproductive toxicity  | Category 2                  |  |  |  |
| STOT-single exposure   | Category 1                  |  |  |  |
| STOT-repeated exposure | Category 1                  |  |  |  |
| Aspiration hazard      | classification not possible |  |  |  |

## 12. Ecological information

The information in this section is based on the "GHS Classification Results" by NITE.

| Methylene blue                                       |                             |  |  |  |
|--|-----------------------------|--|--|--|
| Hazardous to Aquatic Environment -<br>Acute Hazard   | Category 3                  |  |  |  |
| Hazardous to Aquatic Environment -<br>Chronic Hazard | Category 3                  |  |  |  |
| Persistence and degradability                        | No data available           |  |  |  |
| Bioaccumulative potential                            | No data available           |  |  |  |
| Mobility in soil                                     | No data available           |  |  |  |
| Hazardous to the ozone layer                         | classification not possible |  |  |  |

### 13. Disposal considerations

| Ecology - waste materials               | : | With the detail information of the waste, subcontract its disposal to a waste disposer authorized by a Prefectural Governor. |
|---|---|--|
| Contaminated container and<br>packaging | : | Empty the packaging completely prior to disposal.  |
|   |   | Empty containers should be taken for recycle, recovery or waste in accordance with local regulation.                         |
