**Safety Data Sheet****1. Chemical product and company identification****Product name** : Nitric acid, fuming (1.52)**SDS code** : B8-07**Company/undertaking identification** :

HAYASHI PURE CHEMICAL IND.,LTD.

Address : 3-2-12 Uchihiranomachi, Chuo-ku, Osaka, Osaka, Japan

Telephone : 06-6910-7305

E-mail : shiyaku\_kikaku@hpc-j.co.jp

URL : <https://www.hpc-j.co.jp/>**Emergency number** : 06-6910-7305**Recommended use** : For research and experimental use only.**Restrictions on use** : Do not use on a human body or for animal medicines, foods, household products, cosmetics, etc.**2. Hazards identification****GHS classification**

Physical hazards	Explosives	No classification	
	Flammable gases	No classification	
	Aerosol	No classification	
	Oxidizing gases	No classification	
	Gases under pressure	No classification	
	Flammable liquids	No classification	
	Flammable solids	No classification	
	Self-reactive substances and mixtures	No classification	
	Pyrophoric liquids	No classification	
	Pyrophoric solids	No classification	
	Self-heating substances and mixtures	No classification	
	Substances and mixtures which in contact with water emit flammable gases	No classification	
	Oxidizing liquids	Category 1	
	Oxidizing solids	No classification	
	Organic peroxides	No classification	
	Corrosive to metals	Category 1	
	Desensitized explosives	classification not possible	
	Health hazards	Acute toxicity (oral)	classification not possible
		Acute toxicity (dermal)	classification not possible
		Acute toxicity (inhalation:gas)	No classification
Acute toxicity (inhalation:vapors)		Category 1	
Acute toxicity (inhalation:dust/mist)		classification not possible	
Skin corrosion/irritation		Category 1	
Serious eye damage/eye irritation		Category 1	
Respiratory sensitization		classification not possible	
Skin sensitization		classification not possible	
Germ cell mutagenicity		classification not possible	
Carcinogenicity	classification not possible		
Reproductive toxicity	classification not possible		
Specific target organ toxicity (single exposure)	Category 1 (respiratory system)		

	Specific target organ toxicity (repeated exposure)	Category 1 (respiratory system, tooth)
	Aspiration hazard	classification not possible
Environmental hazards	Hazardous to the aquatic environment, short-term (acute)	Category 3
	Hazardous to the aquatic environment, long-term (chronic)	No classification
	Hazardous to the ozone layer	classification not possible

## Hazard pictograms (GHS JP)

GHS03

GHS05

GHS06

GHS08

Signal word (GHS JP)	: Danger
Hazard statements (GHS JP)	: May cause fire or explosion; strong oxidizer (H271) May be corrosive to metals (H290) Causes severe skin burns and eye damage (H314) Fatal if inhaled (H330) Causes damage to organs (respiratory system) (H370) Causes damage to organs (respiratory system, tooth) through prolonged or repeated exposure (H372) Harmful to aquatic life (H402)
Precautionary statements (GHS JP)	
Prevention	: Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. (P210) Keep away from clothing and other combustible materials. (P220) Keep only in original container. (P234) Do not breathe dust/fume/gas/mist/vapors/spray. (P260) Wash hands, forearms and face thoroughly after handling. (P264) Do not eat, drink or smoke when using this product. (P270) Use only outdoors or in a well-ventilated area. (P271) Avoid release to the environment. (P273) Wear protective gloves/protective clothing/eye protection/face protection. (P280) Wear fire resistant or flame retardant clothing. (P283) [In case of inadequate ventilation] wear respiratory protection. (P284)
Response	: IF SWALLOWED: Rinse mouth. Do NOT induce vomiting. (P301+P330+P331) IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water. (P303+P361+P353) IF INHALED: Remove person to fresh air and keep comfortable for breathing (P304+P340) IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. (P305+P351+P338) IF ON CLOTHING: Rinse immediately contaminated clothing and skin with plenty of water before removing clothes. (P306+P360) IF exposed or concerned: Call a POISON CENTER or doctor. (P308+P311) Immediately call a POISON CENTER or doctor. (P310) Get medical advice/attention if you feel unwell. (P314) Wash contaminated clothing before reuse. (P363) In case of fire: Use specify appropriate media to extinguish. (P370+P378) In case of major fire and large quantities: Evacuate area. Fight fire remotely due to the risk of explosion. (P371+P380+P375) Absorb spillage to prevent material-damage. (P390)
Storage	: Store in a well-ventilated place. Keep container tightly closed. (P403+P233) Store locked up. (P405) Store in corrosive resistant container with a resistant inner liner. (P406) Store separately. (P420)
Disposal	: Dispose of contents/container to hazardous or special waste collection point, in accordance with local, regional, national and/or international regulation. (P501)

### 3. Composition/information on ingredients

Distinction of substance or mixture : Substance

Name	Concentration or Concentration range	Formula	Kanpo number		CAS RN
			CSCL no	ISHL no	
Fuming Nitric acid	≥ 97.0% (as nitric acid)	HNO <sub>3</sub>	(1)-394	Existing Chemical Substance	52583-42-3

The above concentration or concentration range are not product specification.

All percentages listed in the above concentration or concentration range are wt%, unless otherwise specified.

### 4. First aid measures

#### First aid measures

- First-aid measures after inhalation : Remove person to fresh air and keep comfortable for breathing.  
Get immediate medical advice/attention.
- First-aid measures after skin contact : Remove/Take off immediately all contaminated clothing.  
Gently wash with plenty of soap and water.  
Get immediate medical advice/attention.
- First-aid measures after eye contact : IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.  
Get immediate medical advice/attention.
- First-aid measures after ingestion : Do NOT induce vomiting.  
Drink plenty of water.  
Rinse mouth.  
Get immediate medical advice/attention.

### 5. Fire fighting measures

- Suitable extinguishing media : Water spray, Dry powder, Sand.
- Unsuitable extinguishing media : Do not use a heavy water stream, Foam, Carbon dioxide (CO<sub>2</sub>)
- Fire hazard : This product is unburnable.  
May cause fire or explosion; strong oxidizer.
- Explosion hazard : May induce explosion of containers by heating.  
May induce explosion of containers by water contamination.
- Hazardous decomposition products in case of fire : In case of fire, product may produce irritative or toxic fumes/gases.
- Firefighting instructions : If ignited, for the initial fire-fighting, cut off combustion sources, extinguish fire at a stroke using appropriate fire-extinguishers.  
In the case of peripheral fire, quickly remove movable containers to safe places.  
If unable to be moved containers, sprinkle water to containers and surrounding equipment, etc. to cool.  
Avoid (reject) fire-fighting water to enter environment.  
Even after extinguishing fire, thoroughly cool containers by using plenty of water.
- Protection during firefighting : Wear appropriate fire-resistant clothing including self contained-compressed air breathing apparatus.

### 6. Accidental release measures

#### Personal Precautions, Protective Equipment and Emergency Procedures

- General measures : Before entering, ventilate the area.  
Do not let unauthorized persons come close to the area.  
Immediately place the leakage area in isolation, with taking proper distances for all directions.  
Wear appropriate personal protective devices to prevent inhalation and contact with eye, skin, and clothing, and never attempt to work on the lee.

#### Environmental precautions

- Environmental precautions : Avoid release to the environment.  
Prevent entry to sewers and public waters.

**Methods and Equipment for Containment and Cleaning up**

- Methods for cleaning up : Clean up any spills as soon as possible, using an absorbent material to collect it.  
Collect leaking and spilled liquid in sealable containers as far as possible.  
Wash out the spilled area with large amounts of water.  
If possible, neutralize with slaked lime, soda ash, etc. before washing out.

**7. Handling and storage****Handling**

- Technical measures : Work with appropriate personal protective equipment to prevent inhalation or contact to eyes, skin, and clothing.  
Handle with care to prevent leakage, overflowing, or scattering, minimize generation of mist or vapor, and thoroughly ventilate.
- Precautions for safe handling : Do not eat, drink or smoke when using this product.  
Thoroughly wash your hands and gargle after handling.  
Ensure good ventilation of the work station.  
Do not contact, breathe or swallow.
- Prevents handling of incompatible substances or mixtures : Avoid prolonged or repeated exposure.

**Storage**

- Storage conditions : Store locked up.  
Store in a well-ventilated place, away from direct sunlight. Keep container tightly closed and keep away from fire and heat sources.  
Store in corrosive resistant container with a resistant inner liner.
- Material used in packaging/containers : Light shielding airtight container.
- Technical measures : Comply with applicable regulations.
- Storage temperature : Cool and dark place

**8. Exposure controls / Personal protection equipment**

Exposure limit values	
Fuming Nitric acid	
Exposure limits (JSOH)	2ppm(5.2mg/m <sup>3</sup> )
Exposure limits (ACGIH)	TWA 2 ppm,STEL 4 ppm

- Appropriate engineering controls : Cover up tightly the generation source at the handling place or install local exhaust equipment or overall ventilation equipment. Install safety showers and eye-fountains near a handling place. Clearly indicate the location.

**Protective equipment**

- Respiratory protection : Gas mask for acid gases
- Hand protection : Impervious protective gloves
- Eye protection : Protective glasses (general glasses, glasses with side-shields, goggles)
- Skin and body protection : Impervious aprons, Impervious work clothing, Impervious long boots

**9. Physical and chemical properties**

- Physical state : Liquid
- Appearance : Liquid
- Color : pale yellow transparent ~ reddish yellow transparent
- Odor : Irritating odor
- pH : ≤ 1 (25°C)
- Melting point : No data available
- Freezing point : No data available
- Boiling point : No data available
- Flash point : No data available
- Auto-ignition temperature : No data available
- Decomposition temperature : No data available
- Flammability (solid, gas) : No data available

Vapor pressure	: No data available
Relative density	: No data available
Density	: 1.52 g/cm <sup>3</sup> (20°C)
Relative gas density	: No data available
Solubility	: Easily soluble in water. Soluble in diethyl ether. Soluble in alcohol.
Partition coefficient n-octanol/water (Log Pow)	: No data available
Explosive limits (vol %)	: No data available
Viscosity, kinematic	: No data available
Particle characteristics	: No data available

## 10. Stability and reactivity

Reactivity	: No data available
Chemical stability	: Stable under normal handling conditions.
Possibility of hazardous reactions	: Provides strong oxidizability. Ignites or explodes on contact with hydrogen sulfide, hydrogen phosphide, hydrogen iodide, carbide, carbon disulfide, amines, hydrazines, etc. Contact with combustible substances such as wood, cellulose, cotton, etc. causes spontaneous ignition. Erodes many metals to evolve reddish-brown nitrogen oxide gas, and in some cases, easily ignitable hydrogen gas. Contact with many common organic compounds and reducing agents poses a risk of fire and explosion.
Conditions to avoid	: Sunlight, heat. Ignition sources such as spark, flame and static electricity. Contact with hydrogen sulfide, hydrogen phosphide, hydrogen iodide, carbide, carbon disulfide, amines, hydrazines, combustible substances, metals, organic compounds and reducing agents.
Incompatible materials	: Hydrogen sulfide, Hydrogen phosphide, Hydrogen iodide, Carbide, Carbon disulfide, Amines, Hydrazines, Combustible substances, Metals, Organic compounds, Reducing agents
Hazardous decomposition products	: Nitrogen oxides

## 11. Toxicological information

The information in this section is based on the "GHS Classification Results" by NITE.

Fuming Nitric acid	
Acute toxicity (oral)	classification not possible
Acute toxicity (dermal)	classification not possible
Acute toxicity (gas)	No classification
Acute toxicity (vapour)	Category 1
Acute toxicity (inhalation:dust/mist)	classification not possible
Skin corrosion/irritation	Category 1
Serious eye damage/irritation	Category 1
Respiratory sensitization	classification not possible
Skin sensitization	classification not possible
Germ cell mutagenicity	classification not possible
Carcinogenicity	classification not possible
Reproductive toxicity	classification not possible
STOT-single exposure	Category 1
STOT-repeated exposure	Category 1
Aspiration hazard	classification not possible

## 12. Ecological information

The information in this section is based on the "GHS Classification Results" by NITE.

Fuming Nitric acid	
Hazardous to Aquatic Environment - Acute Hazard	Category 3
Hazardous to Aquatic Environment - Chronic Hazard	No classification
Persistence and degradability	No data available

Fuming Nitric acid	
Bioaccumulative potential	No data available
Mobility in soil	No data available
Hazardous to the ozone layer	classification not possible

### 13. Disposal considerations

- Ecology - waste materials : With the detail information of the waste, subcontract its disposal to a waste disposer authorized by a Prefectural Governor.
- Contaminated container and packaging : Empty the packaging completely prior to disposal.  
Empty containers should be taken for recycle, recovery or waste in accordance with local regulation.

### 14. Transport information

#### International Regulations

##### Transport by sea(IMDG)

- UN-No. (IMDG) : 2032
- Proper Shipping Name (IMDG) : NITRIC ACID, RED FUMING
- Packing group (IMDG) : I
- Transport hazard class(es) (IMDG) : 8 (5.1, 6.1)
- Hazard labels (IMDG) : 8,5.1,6.1
- Class (IMDG) : 8
- Subsidiary hazard (IMDG) : 5.1, 6.1
- Limited quantities (IMDG) : 0
- Excepted quantities (IMDG) : E0
- Packing instructions (IMDG) : P602
- Tank instructions (IMDG) : T20
- Tank special provisions (IMDG) : TP2, TP13
- Stowage category (IMDG) : D
- Properties and observations (IMDG) : Brown liquid. Powerful oxidant; may cause fire in contact with organic materials such as wood, cotton or straw. Highly corrosive to most metals. Toxic if swallowed, by skin contact or by vapour inhalation. Causes severe burns to skin, eyes and mucous membranes.
- MFAG-No : 157

##### Air transport(IATA)

- UN-No. (IATA) : 2032
- Proper Shipping Name (IATA) : Nitric acid, red fuming
- Packing group (IATA) : Not applicable
- Transport hazard class(es) (IATA) : 8 (5.1, 6.1)
- Class (IATA) : 8
- Subsidiary hazards (IATA) : 5.1, 6.1
- PCA Limited quantities (IATA) : Forbidden
- PCA limited quantity max net quantity (IATA) : Forbidden
- PCA packing instructions (IATA) : Forbidden
- PCA max net quantity (IATA) : Forbidden
- CAO packing instructions (IATA) : Forbidden
- CAO max net quantity (IATA) : Forbidden
- ERG code (IATA) : 8PX

**Marine pollutant** : Not applicable

##### Regulations in Japan

- Regulatory information by sea : Conform to the provisions of the Ship Safety Law.
- Regulatory information by air : Transport ban
- MFAG-No : 157

**Special transport precautions** : When transporting, load containers so that they do not tip over, damage, drop or collapse. Make sure there is no leak in containers.

### 15. Regulatory information

#### National law

- Industrial Safety and Health Law : Group 3 Specified Chemical Substance, (Ordinance on Prevention of Hazards Due to Specified Chemical Substances Art.2 Para.1, Item 6) Harmful Substances Whose Names Are to be Indicated on the Label (Law Art.57, Para.1, Enforcement Order Art.18 Item 1, Item 2,

	Attached Table No.9)
	Notifiable Substances (Law Art.57-2, Enforcement Order Art.18-2 Item 1, Item 2, Attached Table No.9)
	Nitric acid (Ordinance number : 307)
	Corrosive Liquids (Ordinance on Industrial Safety and Health Law Art. 326)
	Substances on dental health checkup (Act, Art.66, Para.3, Enforcement Order, Art.22 Item 3)
Japanese Poisonous and Deleterious Substances Control Law	: Deleterious Substances (Designated Order Art.2) Preparations containing nitric acid (except for preparations which contain 10% or less of nitric acid)
Water Pollution Prevention Law	: Hazardous Substances (Act, Art.2, Enforcement Order Art.2, Ministerial Ordinance to Provide for Effluent Standards, Art.1)
Fire Service Law	: Group 6 - Oxidizing liquids - Nitric acid (Law Art.2 Para 7, Attached Table 1, Group 6)
Law Relating to Prevention of Marine Pollution and Maritime Disasters	: Noxious Liquid Substances - Category Y (Law Art.3(3), Enforcement Order, Art.1-2, Attached Table No.1 Item 2)
Foreign Exchange and Foreign Trade Control Act	: Export Trade Control Order, Attached Table 1 Para.4 Export Trade Control Ordinance appendix 1-16
Ship Safety Act	: Corrosive substances (Dangerous Goods Notification Schedule first second and third Article Dangerous Goods Regulations)
Port Regulation Law	: Corrosive substances (Article 21, Paragraph 2 of Law, Article 12 rule, notice attached table that defines the type of dangerous goods)
Road Act	: Restriction for Vehicle Traffic (Enforcement Order Art.19-13, Publication of Japan Highway Public Corp.)
Waste Management on Public Cleansing Law	: Specially Controlled Industrial Wastes (Act Art.2, para 5, Enforcement Order Art.2-4)
Waterworks Law	: Hazardous Substances (Act Article 4 paragraph 2), Standard for Water Quality (Ministry Order No.101 of 2003)
Japanese Pollutant Release and Transfer Register Law (PRTR Law)	: Not applicable
Labor Standards Act	: Chemical Substances Causing Occupational Illnesses (Act Art.75, Para.2, Ordinance Attached Table 1-2, Item 4-1, MHLW Notification No.36 of 1978)

## 16. Other information

Data sources	: Handbook of 17423 Chemical Products, The Chemical Daily Co, Ltd. International Chemical Safety Cards. National Institute of Technology and Evaluation (NITE). 2020 Emergency Response Guidebook (ERG 2020).
Other information	: The SDS is copyrighted material of Hayashi Pure Chemical Ind, Ltd. This Safety Data Sheet is intended to be provided for business operators who handle chemical substance products of the relevant product and is not intended to assure safety in any way. The Safety Data Sheet does not verify all the information on the applicable chemical substance in the present time. With the recognition in that unknown danger constantly exists in the relevant chemical substance, the product shall be used in the principle of self-responsibility of the user with the highest priority to safety from transport and unpacking to disposal. When the relevant chemical substance is used, the user him/herself shall collect safety information and shall investigate laws and regulations at the place, organizations, countries, etc. where the substance is actually used and give the highest priority to them. The Company shall take no responsibility for investigating state and local regulations and the user shall handle this problem on his/her own responsibility. In the event that SDS in Japanese and SDS translated into other languages exist, the document described in Japanese is prior to all other documents whether or not there is any difference in contents, and documents in other languages shall be references.
