**Safety Data Sheet****1. Chemical product and company identification****Product name** : Amidosulfuric acid**SDS code** : C5-19**Company/undertaking identification** :

HAYASHI PURE CHEMICAL IND.,LTD.

Address : 3-2-12 Uchihiranomachi, Chuo-ku, Osaka, Osaka, Japan

Responsible department : Planning Group, Reagent &amp; Chemical Product Department

Telephone : 06-6910-7305

E-mail : shiyaku\_kikaku@hpc-j.co.jp

URL : <https://www.hpc-j.co.jp/>**Emergency number** : 06-6910-7305**2. Hazards identification****GHS classification**

|  | Substances and mixtures which in contact with water emit flammable gases | No classification               |                             |
|  | Oxidizing liquids  | No classification               |                             |
|  | Oxidizing solids   | No classification               |                             |
|  | Organic peroxides  | No classification               |                             |
|  | Corrosive to metals  | classification not possible     |                             |
|  | Health hazards   | Acute toxicity (oral)           | No classification           |
|  |  | Acute toxicity (dermal)         | classification not possible |
|  |  | Acute toxicity (inhalation:gas) | No classification           |
| Acute toxicity (inhalation:vapors)                 |  | No classification               |                             |
| Acute toxicity (inhalation:dust/mist)              |  | classification not possible     |                             |
| Skin corrosion/irritation                          |  | Category 2                      |                             |
| Serious eye damage/eye irritation                  |  | Category 2A                     |                             |
| Respiratory sensitization                          |  | classification not possible     |                             |
| Skin sensitization                                 |  | classification not possible     |                             |
| Germ cell mutagenicity                             |  | No classification               |                             |
| Carcinogenicity                                    | classification not possible  |                                 |                             |
| Reproductive toxicity                              | classification not possible  |                                 |                             |
| Specific target organ toxicity (single exposure)   | classification not possible  |                                 |                             |
| Specific target organ toxicity (repeated exposure) | classification not possible  |                                 |                             |
| Aspiration hazard                                  | classification not possible  |                                 |                             |

|                       |   |                             |
|-----------------------|---|-----------------------------|
| Environmental hazards | Hazardous to the aquatic environment, short-term (acute)  | Category 3                  |
|                       | Hazardous to the aquatic environment, long-term (chronic) | Category 3                  |
|                       | Hazardous to the ozone layer                              | classification not possible |

Hazard pictograms (GHS JP)

GHS07

|                                   |  |
|-----------------------------------|--|
| Signal word (GHS JP)              | : Warning  |
| Hazard statements (GHS JP)        | : Causes skin irritation (H315)<br>Causes serious eye irritation (H319)<br>Harmful to aquatic life with long lasting effects (H412)  |
| Precautionary statements (GHS JP) |  |
| Prevention                        | : Wash hands, forearms and face thoroughly after handling. (P264)<br>Avoid release to the environment. (P273)<br>Wear protective gloves/protective clothing/eye protection/face protection. (P280)   |
| Response                          | : IF ON SKIN: Wash with plenty of water. (P302+P352)<br>IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. (P305+P351+P338)<br>If skin irritation occurs: Get medical advice/attention. (P332+P313)<br>If eye irritation persists: Get medical advice/attention. (P337+P313)<br>Take off contaminated clothing and wash it before reuse. (P362+P364) |
| Disposal                          | : Dispose of contents/container to hazardous or special waste collection point, in accordance with local, regional, national and/or international regulation. (P501)   |

### 3. Composition/information on ingredients

|                                     |                 |
|-------------------------------------|-----------------|
| Distinction of substance or mixture | : Substance     |
| Synonyms                            | : Sulfamic acid |

| Name               | Concentration or Concentration range | Formula | Kanpo number |                             | CAS RN    |
|--------------------|--------------------------------------|---------|--------------|-----------------------------|-----------|
|                    |                                      |         | CSCL no      | ISHL no                     |           |
| Amidosulfuric acid | ≥99.0%、≤100%                         | H3NO3S  | (1)-402      | Existing Chemical Substance | 5329-14-6 |

The above concentration or concentration range are not product specification.

All percentages listed in the above concentration or concentration range are mass%, unless otherwise specified.

### 4. First aid measures

#### First aid measures

|                                       |   |
|---------------------------------------|---|
| First-aid measures after inhalation   | : Remove person to fresh air and keep comfortable for breathing.<br>Get immediate medical advice/attention.   |
| First-aid measures after skin contact | : Remove/Take off immediately all contaminated clothing.<br>Gently wash with plenty of soap and water.<br>Get immediate medical advice/attention.                             |
| First-aid measures after eye contact  | : IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.<br>Get immediate medical advice/attention. |
| First-aid measures after ingestion    | : Rinse mouth.<br>Get immediate medical advice/attention.   |

## 5. Fire fighting measures

- Suitable extinguishing media : Water spray, Alcohol-resistant foam, Dry powder, Carbon dioxide, Sand.
- Unsuitable extinguishing media : Do not use a heavy water stream.
- Fire hazard : This product is unburnable.
- Explosion hazard : May induce explosion of containers by heating.
- Hazardous decomposition products in case of fire : In case of fire, product may produce irritative or toxic fumes/gases.
- Firefighting instructions : If ignited, for the initial fire-fighting, cut off combustion sources, extinguish fire at a stroke using appropriate fire-extinguishers.  
In the case of peripheral fire, quickly remove movable containers to safe places.  
If unable to be moved containers, sprinkle water to containers and surrounding equipment, etc. to cool.  
Avoid (reject) fire-fighting water to enter environment.  
Even after extinguishing fire, thoroughly cool containers by using plenty of water.
- Protection during firefighting : Wear appropriate fire-resistant clothing including self contained-compressed air breathing apparatus.

## 6. Accidental release measures

### Personal Precautions, Protective Equipment and Emergency Procedures

- General measures : Before entering, ventilate the area.  
Do not let unauthorized persons come close to the area.  
Immediately place the leakage area in isolation, with taking proper distances for all directions.  
Wear appropriate personal protective devices to prevent inhalation and contact with eye, skin, and clothing, and never attempt to work on the lee.

### Environmental precautions

- Environmental precautions : Avoid release to the environment.  
Prevent entry to sewers and public waters.

### Methods and Equipment for Containment and Cleaning up

- Methods for cleaning up : Take care not to generate dust, sweep it up as much as possible, collect it in an empty container that can be sealed, and move it to a safe place.  
Wash out the spilled area with large amounts of water.

## 7. Handling and storage

### Handling

- Technical measures : Work with appropriate personal protective equipment to prevent inhalation or contact to eyes, skin, and clothing.  
Handle with care to prevent leakage, overflowing, or scattering, minimize generation of mist or vapor, and thoroughly ventilate.
- Precautions for safe handling : Do not eat, drink or smoke when using this product.  
Thoroughly wash your hands and gargle after handling.  
Ensure good ventilation of the work station.  
Do not contact, breathe or swallow.
- Prevents handling of incompatible substances or mixtures : Avoid prolonged or repeated exposure.

### Storage

- Storage conditions : Store locked up.  
Store in a well-ventilated place, away from direct sunlight. Keep container tightly closed and keep away from fire and heat sources.
- Material used in packaging/containers : Airtight container.
- Technical measures : Comply with applicable regulations.
- Storage temperature : Cool and dark place

## 8. Exposure controls / Personal protection equipment

Appropriate engineering controls : Cover up tightly the generation source at the handling place or install local exhaust equipment or overall ventilation equipment. Install safety showers and eye-fountains near a handling place. Clearly indicate the location.

### Protective equipment

Respiratory protection : Dustproof mask  
Hand protection : Protective gloves  
Eye protection : Protective glasses (general glasses, glasses with side-shields, goggles)  
Skin and body protection : Protective clothing, Protective boots, Protective apron

## 9. Physical and chemical properties

Physical state : Solid  
Appearance : Crystals ~ Crystalline powder  
Color : white  
Odor : Odorless  
pH : No data available  
Melting point : 205 °C  
Freezing point : No data available  
Boiling point : No data available  
Flash point : No data available  
Auto-ignition temperature : No data available  
Decomposition temperature : No data available  
Flammability (solid, gas) : No data available  
Vapor pressure : No data available  
Relative density : No data available  
Density : 2.1 g/cm<sup>3</sup> (20°C)  
Relative gas density : No data available  
Solubility : Soluble in water. Insoluble in ethanol. Insoluble in diethyl ether.  
Partition coefficient n-octanol/water (Log Pow) : No data available  
Explosive limits (vol %) : No data available  
Viscosity, kinematic : No data available  
Particle characteristics : No data available

## 10. Stability and reactivity

Reactivity : No data available  
Chemical stability : Stable under normal handling conditions.  
Possibility of hazardous reactions : Decomposes by heat and burning, generates toxic and corrosive fumes contain nitrogen oxide and sulfur oxide. Aqueous solution of this material is a strong acid, it reacts violently with bases and shows corrosivity. Reacts violently with chlorine and fuming nitric acid, pose a risk of explosion. Slowly reacts with water, generates ammonium hydrogen sulfate.  
Conditions to avoid : Sunlight, moisture, heat. Contact with bases, chlorine, fuming nitric acid and strong oxidizing agents.  
Incompatible materials : Bases, Chlorine, Fuming nitric acid, Strong oxidizing agents  
Hazardous decomposition products : Sulfur oxides, Nitrogen oxides

## 11. Toxicological information

The information in this section is based on the "GHS Classification Results" by NITE.

| Amidosulfuric acid      |                             |
|-------------------------|-----------------------------|
| Acute toxicity (oral)   | No classification           |
| Acute toxicity (dermal) | classification not possible |
| Acute toxicity (gas)    | No classification           |
| Acute toxicity (vapour) | classification not possible |

| <b>Amidosulfuric acid</b>             |                             |
|---------------------------------------|-----------------------------|
| Acute toxicity (inhalation:dust/mist) | classification not possible |
| Skin corrosion/irritation             | Category 2                  |
| Serious eye damage/irritation         | Category 2A                 |
| Respiratory sensitization             | classification not possible |
| Skin sensitization                    | classification not possible |
| Germ cell mutagenicity                | No classification           |
| Carcinogenicity                       | classification not possible |
| Reproductive toxicity                 | classification not possible |
| STOT-single exposure                  | classification not possible |
| STOT-repeated exposure                | classification not possible |
| Aspiration hazard                     | classification not possible |

## 12. Ecological information

The information in this section is based on the "GHS Classification Results" by NITE.

| <b>Amidosulfuric acid</b>                         |                   |
|---|-------------------|
| Hazardous to Aquatic Environment - Acute Hazard   | Category 3        |
| Hazardous to Aquatic Environment - Chronic Hazard | Category 3        |
| Persistence and degradability                     | No data available |
| Bioaccumulative potential                         | No data available |
| Mobility in soil                                  | No data available |
| Hazardous to the ozone layer                      | No data available |

## 13. Disposal considerations

- Ecology - waste materials : With the detail information of the waste, subcontract its disposal to a waste disposer authorized by a Prefectural Governor.
- Contaminated container and packaging : Empty the packaging completely prior to disposal.  
Empty containers should be taken for recycle, recovery or waste in accordance with local regulation.

## 14. Transport information

### International Regulations

#### Transport by sea(IMDG)

- UN-No. (IMDG) : 2967
- Proper Shipping Name (IMDG) : SULPHAMIC ACID
- Packing group (IMDG) : III
- Transport hazard class(es) (IMDG) : 8
- Hazard labels (IMDG) : 8
- Class (IMDG) : 8
- Packing instructions (IMDG) : P002, LP02
- IBC packing instructions (IMDG) : IBC08
- IBC special provisions (IMDG) : B3
- Tank instructions (IMDG) : T1
- Tank special provisions (IMDG) : TP33
- Stowage category (IMDG) : A
- Properties and observations (IMDG) : White crystalline powder. Soluble in water. Decomposes when heated, evolving toxic fumes. Causes burns to skin, eyes and mucous membranes.
- MFAG-No : 154

#### Air transport(IATA)

- UN-No. (IATA) : 2967
- Proper Shipping Name (IATA) : Sulphamic acid
- Packing group (IATA) : III
- Transport hazard class(es) (IATA) : 8
- Hazard labels (IATA) : 8
- Class (IATA) : 8
