Methods and Equipment for Containment and Cleaning up       : Clean up any spills as soon as possible, using an absorbent material to collect it. Collect it. Collect leaking and spilled liquid in sealable containers as far as possible. Wash out the spilled area with large amounts of water. If possible, neutralize with slaked lime, soda ash, etc. before washing out.         7. Handling and storage       : Work with appropriate personal protective equipment to prevent inhalation or contact to eyes, skin, and clothing. Handle with care to prevent leakage, overflowing, or scattering, minimize generation of mist or vapor, and thoroughly ventilate.         Precautions for safe handling       : Do not eat, drink or smoke when using this product. Thoroughly wash your hands and gargle after handling. Ensure good ventilation of the work station. Do not contact, breathe or swallow.         Prevents handling of incompatible substances or mixtures       : Store locked up. Store in a well-ventilated place, away from direct sunlight. Keep container tightly closed and keep away from fire and heat sources. Store in corrosive resistant container with a resistant inner liner.
