## Safety Data Sheet

### 1. Chemical product and company identification

**Product name** : Alanycarb

**SDS code** : D7-19

**Company/undertaking identification** :

HAYASHI PURE CHEMICAL IND.,LTD.

Address : 3-2-12 Uchihiranomachi, Chuo-ku, Osaka, Osaka, Japan

Telephone : 06-6910-7305

E-mail : shiyaku\_kikaku@hpc-j.co.jp

URL : <https://www.hpc-j.co.jp/>

**Emergency number** : 06-6910-7305

**Recommended use** : For research and experimental use only.

**Restrictions on use** : Do not use for any purpose other than research and experiment. Do not use on a human body or for animal medicines, foods, household products, cosmetics, etc. Do not use in the environment.

### 2. Hazards identification

#### GHS classification

|                  |                                                                          |                                                |
|------------------|--------------------------------------------------------------------------|------------------------------------------------|
| Physical hazards | Explosives                                                               | classification not possible                    |
|                  | Flammable gases                                                          | No classification                              |
|                  | Aerosol                                                                  | No classification                              |
|                  | Oxidizing gases                                                          | No classification                              |
|                  | Gases under pressure                                                     | No classification                              |
|                  | Flammable liquids                                                        | No classification                              |
|                  | Flammable solids                                                         | classification not possible                    |
|                  | Self-reactive substances and mixtures                                    | classification not possible                    |
|                  | Pyrophoric liquids                                                       | No classification                              |
|                  | Pyrophoric solids                                                        | classification not possible                    |
|                  | Self-heating substances and mixtures                                     | classification not possible                    |
|                  | Substances and mixtures which in contact with water emit flammable gases | No classification                              |
|                  | Oxidizing liquids                                                        | No classification                              |
|                  | Oxidizing solids                                                         | classification not possible                    |
|                  | Organic peroxides                                                        | No classification                              |
|                  | Corrosive to metals                                                      | classification not possible                    |
|                  | Desensitized explosives                                                  | classification not possible                    |
| Health hazards   | Acute toxicity (oral)                                                    | Category 4                                     |
|                  | Acute toxicity (dermal)                                                  | No classification                              |
|                  | Acute toxicity (inhalation:gas)                                          | No classification                              |
|                  | Acute toxicity (inhalation:vapors)                                       | classification not possible                    |
|                  | Acute toxicity (inhalation:dust/mist)                                    | classification not possible                    |
|                  | Skin corrosion/irritation                                                | No classification                              |
|                  | Serious eye damage/eye irritation                                        | No classification                              |
|                  | Respiratory sensitization                                                | classification not possible                    |
|                  | Skin sensitization                                                       | No classification                              |
|                  | Germ cell mutagenicity                                                   | No classification                              |
|                  | Carcinogenicity                                                          | No classification                              |
|                  | Reproductive toxicity                                                    | No classification                              |
|                  | Specific target organ toxicity (single exposure)                         | Category 1 (systemic toxicity, nervous system) |

|                       |                                                           |                                                |
|-----------------------|-----------------------------------------------------------|------------------------------------------------|
| Environmental hazards | Specific target organ toxicity (repeated exposure)        | Category 2 (systemic toxicity, nervous system) |
|                       | Aspiration hazard                                         | classification not possible                    |
|                       | Hazardous to the aquatic environment, short-term (acute)  | Category 1                                     |
|                       | Hazardous to the aquatic environment, long-term (chronic) | Category 1                                     |
|                       | Hazardous to the ozone layer                              | classification not possible                    |

GHS09

|                                   |                                                                                                                                                                                                                                                                                    |
|-----------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Signal word (GHS JP)              | : Danger                                                                                                                                                                                                                                                                           |
| Hazard statements (GHS JP)        | : Harmful if swallowed (H302)<br>Causes damage to organs (systemic toxicity, nervous system) (H370)<br>May cause damage to organs (systemic toxicity, nervous system) through prolonged or repeated exposure (H373)<br>Very toxic to aquatic life with long lasting effects (H410) |
| Precautionary statements (GHS JP) |                                                                                                                                                                                                                                                                                    |
| Prevention                        | : Do not breathe dust/fume/gas/mist/vapors/spray. (P260)<br>Wash hands, forearms and face thoroughly after handling. (P264)<br>Do not eat, drink or smoke when using this product. (P270)<br>Avoid release to the environment. (P273)                                              |
| Response                          | : IF SWALLOWED: Call a POISON CENTER or doctor if you feel unwell. (P301+P312)<br>IF exposed or concerned: Call a POISON CENTER or doctor. (P308+P311)<br>Get medical advice/attention if you feel unwell. (P314)<br>Rinse mouth. (P330)<br>Collect spillage. (P391)               |
| Storage                           | : Store locked up. (P405)                                                                                                                                                                                                                                                          |
| Disposal                          | : Dispose of contents/container to hazardous or special waste collection point, in accordance with local, regional, national and/or international regulation. (P501)                                                                                                               |

### 3. Composition/information on ingredients

Distinction of substance or mixture : Substance

| Name      | Concentration or Concentration range | Formula      | Kanpo number |         | CAS RN     |
|-----------|--------------------------------------|--------------|--------------|---------|------------|
|           |                                      |              | CSCL no      | ISHL no |            |
| Alanycarb | ≥ 95%, ≤ 100%                        | C17H25N3O4S2 | -            | -       | 83130-01-2 |

The above concentration or concentration range are not product specification.

All percentages listed in the above concentration or concentration range are wt%, unless otherwise specified.

### 4. First aid measures

#### First aid measures

|                                       |                                                                                                                                                                               |
|---------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| First-aid measures after inhalation   | : Remove person to fresh air and keep comfortable for breathing.<br>Get immediate medical advice/attention.                                                                   |
| First-aid measures after skin contact | : Remove/Take off immediately all contaminated clothing.<br>Gently wash with plenty of soap and water.<br>Get immediate medical advice/attention.                             |
| First-aid measures after eye contact  | : IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.<br>Get immediate medical advice/attention. |
| First-aid measures after ingestion    | : Rinse mouth.<br>Get immediate medical advice/attention.                                                                                                                     |

## 5. Fire fighting measures

- Suitable extinguishing media : Water spray, Foam, Dry powder, Carbon dioxide, Sand.
- Unsuitable extinguishing media : Do not use a heavy water stream.
- Explosion hazard : May induce explosion of containers by heating.
- Hazardous decomposition products in case of fire : In case of fire, product may produce irritative or toxic fumes/gases.
- Firefighting instructions : If ignited, for the initial fire-fighting, cut off combustion sources, extinguish fire at a stroke using appropriate fire-extinguishers.  
In the case of peripheral fire, quickly remove movable containers to safe places.  
If unable to be moved containers, sprinkle water to containers and surrounding equipment, etc. to cool.  
Avoid (reject) fire-fighting water to enter environment.  
Even after extinguishing fire, thoroughly cool containers by using plenty of water.
- Protection during firefighting : Wear appropriate fire-resistant clothing including self contained-compressed air breathing apparatus.

## 6. Accidental release measures

### Personal Precautions, Protective Equipment and Emergency Procedures

- General measures : Before entering, ventilate the area.  
Do not let unauthorized persons come close to the area.  
Immediately place the leakage area in isolation, with taking proper distances for all directions.  
Wear appropriate personal protective devices to prevent inhalation and contact with eye, skin, and clothing, and never attempt to work on the lee.

### Environmental precautions

- Environmental precautions : Avoid release to the environment.  
Prevent entry to sewers and public waters.

### Methods and Equipment for Containment and Cleaning up

- Methods for cleaning up : Take care not to generate dust, sweep it up as much as possible, collect it in an empty container that can be sealed, and move it to a safe place.  
Wash out the spilled area with large amounts of water.

## 7. Handling and storage

### Handling

- Technical measures : Work with appropriate personal protective equipment to prevent inhalation or contact to eyes, skin, and clothing.  
Handle with care to prevent leakage, overflowing, or scattering, minimize generation of mist or vapor, and thoroughly ventilate.
- Precautions for safe handling : Do not eat, drink or smoke when using this product.  
Thoroughly wash your hands and gargle after handling.  
Ensure good ventilation of the work station.  
Do not contact, breathe or swallow.
- Prevents handling of incompatible substances or mixtures : Avoid prolonged or repeated exposure.

### Storage

- Storage conditions : Store locked up.  
Store in a well-ventilated place, away from direct sunlight. Keep container tightly closed and keep away from fire and heat sources.
- Material used in packaging/containers : Light shielding airtight container.
- Technical measures : Comply with applicable regulations.
- Storage temperature : Refrigerate: 2-10°C

## 8. Exposure controls / Personal protection equipment

Appropriate engineering controls : Cover up tightly the generation source at the handling place or install local exhaust equipment or overall ventilation equipment. Install safety showers and eye-fountains near a handling place. Clearly indicate the location.

### Protective equipment

Respiratory protection : Dustproof mask  
Hand protection : Impervious protective gloves  
Eye protection : Protective glasses (general glasses, glasses with side-shields, goggles)  
Skin and body protection : Impervious aprons, Impervious work clothing, Impervious long boots

## 9. Physical and chemical properties

Physical state : Solid  
Appearance : Crystalline powder  
Color : whitish  
Odor : No data available  
pH : No data available  
Melting point : 46.6 – 47.0 °C  
Freezing point : No data available  
Boiling point : No data available  
Flash point : No data available  
Auto-ignition temperature : No data available  
Decomposition temperature : No data available  
Flammability : No data available  
Vapor pressure : 5.8 kPa (20°C)  
Relative density : No data available  
Density : No data available  
Relative gas density : No data available  
Solubility : Water: 27.7 mg/l (20°C)  
Partition coefficient n-octanol/water (Log Pow) : 3.43  
Explosive limits (vol %) : No data available  
Viscosity, kinematic : No data available  
Particle characteristics : No data available

## 10. Stability and reactivity

Reactivity : No data available  
Chemical stability : Stable up to 100°C. It decomposes 0.2-1.0% after 30 days at 54°C. Stable at neutral or weakly basic.  
Possibility of hazardous reactions : No data available  
Conditions to avoid : Sunlight, heat. Contact with acids and strong bases.  
Incompatible materials : No data available  
Hazardous decomposition products : Nitrogen oxides, Sulfur oxides

## 11. Toxicological information

The information in this section is based on the "GHS Classification Results" by NITE.

| Alanycarb                             |                             |
|---------------------------------------|-----------------------------|
| Acute toxicity (oral)                 | Category 4                  |
| Acute toxicity (dermal)               | No classification           |
| Acute toxicity (gas)                  | No classification           |
| Acute toxicity (vapour)               | classification not possible |
| Acute toxicity (inhalation:dust/mist) | classification not possible |
| Skin corrosion/irritation             | No classification           |
| Serious eye damage/irritation         | No classification           |
| Respiratory sensitization             | classification not possible |

| Alanycarb              |                             |
|------------------------|-----------------------------|
| Skin sensitization     | No classification           |
| Germ cell mutagenicity | No classification           |

| STOT-single exposure   | Category 1                  |
| STOT-repeated exposure | Category 2                  |
| Aspiration hazard      | classification not possible |

## 12. Ecological information

The information in this section is based on the "GHS Classification Results" by NITE.

| Alanycarb                                         |                   |
|---------------------------------------------------|-------------------|
| Hazardous to Aquatic Environment - Acute Hazard   | Category 1        |
| Hazardous to Aquatic Environment - Chronic Hazard | Category 1        |
| Persistence and degradability                     | No data available |
| Bioaccumulative potential                         | No data available |
| Mobility in soil                                  | No data available |
| Hazardous to the ozone layer                      | No data available |

## 13. Disposal considerations

- Ecology - waste materials : With the detail information of the waste, subcontract its disposal to a waste disposer authorized by a Prefectural Governor.
- Contaminated container and packaging : Empty the packaging completely prior to disposal.  
Empty containers should be taken for recycle, recovery or waste in accordance with local regulation.

## 14. Transport information

### International Regulations

#### Transport by sea(IMDG)

- UN-No. (IMDG) : 3077
- Proper Shipping Name (IMDG) : ENVIRONMENTALLY HAZARDOUS SUBSTANCE, SOLID, N.O.S.
- Packing group (IMDG) : III
- Transport hazard class(es) (IMDG) : 9
- Hazard labels (IMDG) : 9
- Class (IMDG) : 9
- Special provision (IMDG) : 274, 335, 966, 967, 969
- Limited quantities (IMDG) : 5 kg
- Excepted quantities (IMDG) : E1
- Packing instructions (IMDG) : LP02, P002
- Packing provisions (IMDG) : PP12
- IBC packing instructions (IMDG) : IBC08
- IBC special provisions (IMDG) : B3
- Tank instructions (IMDG) : BK1, BK2, BK3, T1
- Tank special provisions (IMDG) : TP33
- Stowage category (IMDG) : A
- MFAG-No : 171

#### Air transport(IATA)

- UN-No. (IATA) : 3077
- Proper Shipping Name (IATA) : Environmentally hazardous substance, solid, n.o.s.
- Packing group (IATA) : III
- Transport hazard class(es) (IATA) : 9
- Hazard labels (IATA) : 9
- Class (IATA) : 9
- PCA Excepted quantities (IATA) : E1
- PCA Limited quantities (IATA) : Y956
- PCA limited quantity max net quantity (IATA) : 30kgG
- PCA packing instructions (IATA) : 956
