

# Cyanide standard solution 1mg CN/mL (1000ppm)

Hayashi Pure Chemical Ind.,Ltd.

Date of issue: 4/30/2010 Revision date: 8/8/2023 SDS code: E4-05 Version: 06

# Safety Data Sheet

### 1. Chemical product and company identification

| Product name  | :            | Cyanide standard solution 1mg CN/mL (1000ppm)  |
|---|--------------|--|
| SDS code  | :            | E4-05  |
| Company/undertaking<br>identification<br>HAYASHI PURE CHEMICAL<br>Address : 3-2-12 Uchihirano<br>Telephone : 06-6910-7305<br>E-mail : shiyaku_kikaku@hp<br>URL : https://www.hpc-j.co.j | oma<br>oc-j. | chi, Chuo-ku, Osaka, Osaka, Japan  |
| Emergency number  | :            | 06-6910-7305   |
| Recommended use   | :            | For research and experimental use only.  |
| Restrictions on use   | :            | Do not use on a human body or for animal medicines, foods, household products, cosmetics, etc. |

# 2. Hazards identification

#### **GHS** classification

| Physical hazards | Explosives   | classification not possible     |
|------------------|--|---------------------------------|
|                  | Flammable gases  | No classification               |
|                  | Aerosol  | classification not possible     |
|                  | Oxidizing gases  | No classification               |
|                  | Gases under pressure   | No classification               |
|                  | Flammable liquids  | classification not possible     |
|                  | Flammable solids   | No classification               |
|                  | Self-reactive substances and<br>mixtures                                 | classification not possible     |
|                  | Pyrophoric liquids   | classification not possible     |
|                  | Pyrophoric solids  | No classification               |
|                  | Self-heating substances and<br>mixtures                                  | classification not possible     |
|                  | Substances and mixtures which in contact with water emit flammable gases | classification not possible     |
|                  | Oxidizing liquids  | classification not possible     |
|                  | Oxidizing solids   | No classification               |
|                  | Organic peroxides  | classification not possible     |
|                  | Corrosive to metals  | Category 1                      |
|                  | Desensitized explosives  | classification not possible     |
| Health hazards   | Acute toxicity (oral)  | Category 4                      |
|                  | Acute toxicity (dermal)  | classification not possible     |
|                  | Acute toxicity (inhalation:gas)  | No classification               |
|                  | Acute toxicity (inhalation:vapors)                                       | classification not possible     |
|                  | Acute toxicity (inhalation:dust/mist)                                    | classification not possible     |
|                  | Skin corrosion/irritation  | Category 1                      |
|                  | Serious eye damage/eye irritation  | Category 1                      |
|                  | Respiratory sensitization  | classification not possible     |
|                  | Skin sensitization   | classification not possible     |
|                  | Germ cell mutagenicity   | classification not possible     |
|                  | Carcinogenicity  | classification not possible     |
|                  | Reproductive toxicity  | classification not possible     |
|                  | Specific target organ toxicity (single exposure)                         | Category 2 (respiratory system) |

|  | Specific target organ toxicity (repeated exposure)   | Category 2 (respiratory system)  |  |
|--|--|--|--|
|  | Aspiration hazard  | classification not possible  |  |
| Environmental<br>hazards                                 | Hazardous to the aquatic<br>environment, short-term (acute)  | classification not possible  |  |
|  | Hazardous to the aquatic environment, long-term (chronic)  | classification not possible  |  |
|  | Hazardous to the ozone layer   | classification not possible  |  |
| Hazard<br>pictograms<br>(GHS JP)                         |  |  |  |

| Storage  | : Store locked up  |  |  |
| Disposal   | : Dispose of con   | tents/container to hazardous or special waste collection<br>lance with local, regional, national and/or international  |  |

## 3. Composition/information on ingredients

Distinction of substance or mixture : Mixture

| Name                | Concentration or    | Formula | Kanpo    | CAS RN                            |           |
|---------------------|---------------------|---------|----------|-----------------------------------|-----------|
| Name                | Concentration range | Tornula | CSCL no  | ISHL no                           | CASIN     |
| Potassium cyanide   | About 0.24%         | KCN     | (1)-1086 | Existing<br>Chemical<br>Substance | 151-50-8  |
| Potassium hydroxide | About 5.5%          | КОН     | (1)-369  | Existing<br>Chemical<br>Substance | 1310-58-3 |
| Water               | About 94.26%        | H2O     | -        | -                                 | 7732-18-5 |

The above concentration or concentration range are not product specification.

All percentages listed in the above concentration or concentration range are wt%, unless otherwise specified.

## 4. First aid measures

#### First aid measures

| First-aid measures after inhalation     | : | Remove person to fresh air and keep comfortable for breathing.<br>Get immediate medical advice/attention.                        |
|---|---|--|
| First-aid measures after skin contact   |   | Remove/Take off immediately all contaminated clothing.<br>Gently wash with plenty of soap and water.                             |
|   |   | Get immediate medical advice/attention.  |
| First-aid measures after eye<br>contact | : | IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. |
|   |   | Get immediate medical advice/attention.  |
| First-aid measures after ingestion      |   | Do NOT induce vomiting.  |
|   |   | Rinse mouth.   |
|   |   | Get immediate medical advice/attention.  |

## 5. Fire fighting measures

| Suitable extinguishing media                        | : | Dry powder, Sand.  |
|---|---|--|
| Unsuitable extinguishing media                      | : | Water, Carbon dioxide (CO2)  |
| Explosion hazard                                    | : | May induce explosion of containers by heating.   |
| Hazardous decomposition products<br>in case of fire | : | In case of fire, product may produce irritative or toxic fumes/gases.  |
| Firefighting instructions                           | : | If ignited, for the initial fire-fighting, cut off combustion sources, extinguish fire at a stroke using appropriate fire-extinguishers. |
|   |   | In the case of peripheral fire, quickly remove movable containers to safe places.  |
|   |   | If unable to be moved containers, sprinkle water to containers and surrounding equipment, etc. to cool.                                  |
|   |   | Avoid (reject) fire-fighting water to enter environment.   |
|   |   | Even after extinguishing fire, thoroughly cool containers by using plenty of water.  |
| Protection during firefighting                      | : | Wear appropriate fire-resistant clothing including self contained-<br>compressed air breathing apparatus.                                |

### 6. Accidental release measures

Personal Precautions, Protective Equipment and Emergency Procedures

| General measures          | : | Before entering, ventilate the area.   |  |  |
|---------------------------|---|--|--|--|
|                           |   | Do not let unauthorized persons come close to the area.  |  |  |
|                           |   | Immediately place the leakage area in isolation, with taking proper distances for all directions.  |  |  |
|                           |   | Wear appropriate personal protective devices to prevent inhalation and contact with eye, skin, and clothing, and never attempt to work on the lee. |  |  |
| Environmental precautions |   |  |  |  |
| Environmental precautions | : | Avoid release to the environment.  |  |  |
|                           |   | Prevent entry to sewers and public waters.   |  |  |

#### Methods and Equipment for Containment and Cleaning up

| Methods and Equipment for Contain                           | inm | nent and Cleaning up   |  |  |
|---|-----|--|--|--|
| Methods for cleaning up :                                   |     | Clean up any spills as soon as possible, using an absorbent material to collect it.  |  |  |
|   |     | Collect leaking and spilled liquid in sealable containers as far as possible.  |  |  |
|   |     | Wash out the spilled area with large amounts of water.   |  |  |
| 7. Handling and storage                                     |     |  |  |  |
| Handling  |     |  |  |  |
| Technical measures  | :   | Work with appropriate personal protective equipment to prevent inhalation or contact to eyes, skin, and clothing.                    |  |  |
|   |     | Handle with care to prevent leakage, overflowing, or scattering, minimize generation of mist or vapor, and thoroughly ventilate.     |  |  |
| Precautions for safe handling                               | :   | Do not eat, drink or smoke when using this product.  |  |  |
|   |     | Thoroughly wash your hands and gargle after handling.  |  |  |
|   |     | Ensure good ventilation of the work station.   |  |  |
|   |     | Do not contact, breathe or swallow.  |  |  |
| Prevents handling of incompatible<br>substances or mixtures | :   | Avoid prolonged or repeated exposure.  |  |  |
| Storage   |     |  |  |  |
| Storage conditions  | :   | Store locked up.   |  |  |
|   |     | Store in a well-ventilated place, away from direct sunlight. Keep container tightly closed and keep away from fire and heat sources. |  |  |
|   |     | Store in corrosive resistant container with a resistant inner liner.   |  |  |
| Material used in  |     | Light shielding airtight container   |  |  |

| Material used in<br>packaging/containers | : | Light shielding airtight container.<br>Storage prohibition in glass or porcelain container. |
|--|---|---|
| Technical measures                       | : | Comply with applicable regulations.   |
| Storage temperature                      | : | Refrigerate   |

## 8. Exposure controls / Personal protection equipment

| Exposure limit values            |  |  |
|----------------------------------|--|--|
| Potassium cyanide                |  |  |
| Japan administration level       | 3mg/m3(as CN)  |  |
| Exposure limits (JSOH)           | [Ceiling]5mg/m3(Skin)(as CN)   |  |
| Exposure limits (ACGIH)          | TWA -,STEL C 5 mg/m3 (as CN Cyanide salts) (Skin)  |  |
| Potassium hydroxide              |  |  |
| Exposure limits (JSOH)           | [Ceiling]2mg/m3  |  |
| Exposure limits (ACGIH)          | TWA -,STEL C 2 mg/m3   |  |
| Appropriate engineering controls | : Cover up tightly the generation source at the handling place or install local exhaust equipment or overall ventilation equipment. Install safety showers and eye-fountains near a handling place. Clearly indicate the location. |  |
| Protective equipment             |  |  |
| Respiratory protection           | : Gas mask for hydrogen cyanide  |  |
| Hand protection                  | : Impervious protective gloves   |  |
| Eye protection                   | : Protective glasses (general glasses, glasses with side-shields, goggles)   |  |
| Skin and body protection         | : Impervious aprons, Impervious work clothing, Impervious long boots   |  |

# 9. Physical and chemical properties

| Physical state | : | Liquid                |
|----------------|---|-----------------------|
| Appearance     | : | Liquid                |
| Color          | : | colorless transparent |
| Odor           | : | Odorless              |
| рН             | : | ≥ 13 (25°C)           |
| Melting point  | : | No data available     |
| Freezing point | : | No data available     |
| Boiling point  | : | No data available     |
| Flash point    | : | No data available     |

| Auto-ignition temperature                           | : | No data available             |
|---|---|-------------------------------|
| Decomposition temperature                           | : | No data available             |
| Flammability (solid, gas)                           | : | No data available             |
| Vapor pressure                                      | : | No data available             |
| Relative density                                    | : | No data available             |
| Density   | : | 1.06 g/cm <sup>3</sup> (20°C) |
| Relative gas density                                | : | No data available             |
| Solubility  | : | No data available             |
| Partition coefficient n-<br>octanol/water (Log Pow) | : | No data available             |
| Explosive limits (vol %)                            | : | No data available             |
| Viscosity, kinematic                                | : | No data available             |
| Particle characteristics                            | : | No data available             |
|   |   |                               |

# 10. Stability and reactivity

| Reactivity                          | : | No data available   |
|-------------------------------------|---|---|
| Chemical stability                  | : | Stable under normal handling conditions. It reacts gradually with carbon dioxide in the air and may produce a small amount of hydrogen cyanide.   |
| Possibility of hazardous reactions  | : | When heated, it decomposes to produce hydrogen cyanide and nitrogen oxides. When in contact with acids and alkaline carbonate, it produces toxic hydrogen cyanide. Reacts with strong oxidizing agents. |
| Conditions to avoid                 | : | Sunlight, heat. Contact with acids, alkaline carbonate and strong oxidizing agents.   |
| Incompatible materials              | : | Acids, Alkaline carbonate, Strong oxidizing agents  |
| Hazardous decomposition<br>products | : | Hydrogen cyanide, Nitrogen oxides   |

## **11. Toxicological information**

The information in this section is based on the "GHS Classification Results" by NITE.

| As a product                          |  |  |  |
|---------------------------------------|--|--|--|
| Acute toxicity (oral)                 | Category 4                             |  |  |
| Acute toxicity (dermal)               | classification not possible            |  |  |
| Acute toxicity (inhalation)           | vapors:classification not possible     |  |  |
|                                       | Gases:No classification                |  |  |
|                                       | dust, mist:classification not possible |  |  |
| Skin corrosion/irritation             | Category 1                             |  |  |
| Serious eye damage/irritation         | Category 1                             |  |  |
| Respiratory sensitization             | classification not possible            |  |  |
| Skin sensitization                    | classification not possible            |  |  |
| Germ cell mutagenicity                | classification not possible            |  |  |
| Carcinogenicity                       | classification not possible            |  |  |
| Reproductive toxicity                 | classification not possible            |  |  |
| STOT-single exposure                  | Category 2                             |  |  |
| STOT-repeated exposure                | Category 2                             |  |  |
| Aspiration hazard                     | classification not possible            |  |  |
| Potassium cyanide                     |  |  |  |
| Acute toxicity (oral)                 | Category 2                             |  |  |
| Acute toxicity (dermal)               | Category 1                             |  |  |
| Acute toxicity (gas)                  | No classification                      |  |  |
| Acute toxicity (vapour)               | classification not possible            |  |  |
| Acute toxicity (inhalation:dust/mist) | classification not possible            |  |  |
| Skin corrosion/irritation             | Category 3                             |  |  |
| Serious eye damage/irritation         | Category 2A                            |  |  |
| Respiratory sensitization             | classification not possible            |  |  |
| Skin sensitization                    | classification not possible            |  |  |
| Germ cell mutagenicity                | classification not possible            |  |  |
| Carcinogenicity                       | classification not possible            |  |  |
| Reproductive toxicity                 | classification not possible            |  |  |
| STOT-single exposure                  | Category 2                             |  |  |

| Potassium cyanide                     |                             |  |  |

| STOT-repeated exposure                | Category 1                  |  |  |
| Aspiration hazard                     | classification not possible |  |  |
| Potassium hydroxide                   |                             |  |  |
| Acute toxicity (oral)                 | Category 3                  |  |  |
| Acute toxicity (dermal)               | classification not possible |  |  |
| Acute toxicity (gas)                  | No classification           |  |  |
| Acute toxicity (vapour)               | No classification           |  |  |
| Acute toxicity (inhalation:dust/mist) | classification not possible |  |  |
| Skin corrosion/irritation             | Category 1                  |  |  |
| Serious eye damage/irritation         | Category 1                  |  |  |
| Respiratory sensitization             | classification not possible |  |  |
| Skin sensitization                    | classification not possible |  |  |
| Germ cell mutagenicity                | classification not possible |  |  |
| Carcinogenicity                       | classification not possible |  |  |
| Reproductive toxicity                 | classification not possible |  |  |
| STOT-single exposure                  | Category 1                  |  |  |
| STOT-repeated exposure                | Category 1                  |  |  |
| Aspiration hazard                     | Category 1                  |  |  |
| Water                                 |                             |  |  |
| Acute toxicity (oral)                 | No classification           |  |  |
| Acute toxicity (dermal)               | No classification           |  |  |
| Acute toxicity (gas)                  | No classification           |  |  |
| Acute toxicity (vapour)               | No classification           |  |  |
| Acute toxicity (inhalation:dust/mist) | No classification           |  |  |
| Skin corrosion/irritation             | No classification           |  |  |
| Serious eye damage/irritation         | No classification           |  |  |
| Respiratory sensitization             | No classification           |  |  |
| Skin sensitization                    | No classification           |  |  |
| Germ cell mutagenicity                | No classification           |  |  |
| Carcinogenicity                       | No classification           |  |  |
| Reproductive toxicity                 | No classification           |  |  |
| STOT-single exposure                  | No classification           |  |  |
| STOT-repeated exposure                | No classification           |  |  |
| Aspiration hazard                     | No classification           |  |  |

## 12. Ecological information

The information in this section is based on the "GHS Classification Results" by NITE.

| As a product  |                             |
|---|-----------------------------|
| Hazardous to the aquatic environment, short-term (acute)  | classification not possible |
| Hazardous to the aquatic environment, long-term (chronic) | classification not possible |
| Persistence and degradability                             | No data available           |
| Bioaccumulative potential                                 | No data available           |
| Mobility in soil  | No data available           |
| Ozone   | classification not possible |
| Potassium cyanide   |                             |
| Hazardous to Aquatic Environment -<br>Acute Hazard        | Category 1                  |
| Hazardous to Aquatic Environment -<br>Chronic Hazard      | Category 1                  |
| Persistence and degradability                             | No data available           |
| Bioaccumulative potential                                 | No data available           |
| Mobility in soil  | No data available           |
| Hazardous to the ozone layer                              | No data available           |

| Potassium hydroxide   |                                       |  |

## 13. Disposal considerations

| Ecology - waste materials               | : | With the detail information of the waste, subcontract its disposal to a waste disposer authorized by a Prefectural Governor.                              |
|---|---|---|
| Contaminated container and<br>packaging | : | Empty the packaging completely prior to disposal.<br>Empty containers should be taken for recycle, recovery or waste in accordance with local regulation. |

## 14. Transport information

#### International Regulations

#### Transport by sea(IMDG)

| C, N.O.S.               |
|-------------------------|
| o skin, eyes and mucous |
|                         |
|                         |
|                         |
|                         |
| o skin, eyes and muco   |

| Marine pollutant  | : | Not applicable  |
|---|---|---|
| Regulations in Japan  |   |   |
| Regulatory information by sea<br>Regulatory information by air<br>MFAG-No | : | Conform to the provisions of the Ship Safety Law.<br>Conform to the provisions of the Civil Aeronautics Law.<br>154   |
| Special transport precautions   | : | When transporting, load containers so that they do not tip over,<br>damage, drop or collapse. Make sure there is no leak in containers.   |
| 15. Regulatory information<br>National law                                |   |   |
| Industrial Safety and Health Law  | : | Harmful Substances Whose Names Are to be Indicated on the Label<br>(Law Art.57, Para.1, Enforcement Order Art.18 Item 1, Item 2,<br>Attached Table No.9)<br>Notifiable Substances (Law Art.57-2, Enforcement Order Art.18-2<br>Item 1, Item 2, Attached Table No.9)<br>Potassium hydroxide (Ordinance number : 316)<br>Corrosive Liquids (Ordinance on Industrial Safety and Health Law Art.<br>326)  |
| Japanese Poisonous and<br>Deleterious Substances Control Law              | : | Poisonous Substances (Designated Order, Art.1)<br>Inorganic cyanide compounds and preparations containing it. (except<br>for the following preparations; i)iron(III) hexacyanoironate(II), ii)salt of<br>ferricyanide and preparations containing it, iii)salt of ferrocyanide and<br>preparations containing it)<br>Deleterious Substances (Designated Order Art.2)<br>Preparations containing potassium hydroxide (except for preparations<br>which contain 5% or less potassium hydroxide) |
| Water Pollution Prevention Law  | : | Hazardous Substances (Act, Art.2, Enforcement Order Art.2,<br>Ministerial Ordinance to Provide for Effluent Standards, Art.1)<br>Designated Chemical Substances (Law Article 2, Paragraph 4,<br>Enforcement Order Article 3-3)  |
| Fire Service Law  | : | Designation of Materials Requiring Notification (Law Art.9-3, Cabinet<br>Order on Hazardous Materials Art.1-10 Para 5, Attached Table No.1-<br>8, Ordinacne No. 2 of 1988, Art.1)   |
| Air Pollution Control Law   | : | Hazardous Air Pollutants (Central Environment Council Report No. 9)   |
| Foreign Exchange and Foreign<br>Trade Control Act                         | : | Export Trade Control Ordinance appendix 1-16  |
| Ship Safety Act   | : | Corrosive substances (Dangerous Goods Notification Schedule first second and third Article Dangerous Goods Regulations)   |
| Civil Aeronautics Law   | : | Corrosive substances (Hazardous materials notice Appended Table 1<br>Article 194 of the Enforcement Regulations)  |
| Port Regulation Law   | : | Corrosive substances (Article 21, Paragraph 2 of Law, Article 12 rule, notice attached table that defines the type of dangerous goods)  |
| Road Act  | : | Restriction for Vehicle Traffic (Enforcement Order Art.19-13, Publication of Japan Highway Pablic Corp.)  |
| Waste Management on Public<br>Cleansing Law                               | : | Specially Controlled Industrial Wastes (Act Art.2, para 5, Enfothment Order Art.2-4)  |
| Sewerage Law  | : | Substances for Water Quality Standard (Act Art.12-2 Para.2, Enforcement Order Art.9-4)  |
| Japanese Pollutant Release and<br>Transfer Register Law (PRTR Law)        | : | Not applicable  |
| Labor Standards Act   | : | Chemical Substances Causing Occupational Illnesses (Act Art.75,<br>Para.2, Ordinance Attached Table 1-2, Item 4-1, MHLW Nortification<br>No.36 of 1978)   |
| Soil Contamination<br>Countermeasures Law                                 | : | Designated Hazardous Substances (Act Art.2 Para.3, Enforcement<br>Order Art.1)  |

operators who handle chemical substance products of the relevant product and is not intended to assure safety in any way. The Safety Data Sheet does not verify all the information on the applicable chemical substance in the present time. With the recognition in that unknown danger constantly exists in the relevant chemical substance, the product shall be used in the principle of self-responsibility of the user with the highest priority to safety from transport and unpacking to disposal. When the relevant chemical substance is used, the user him/herself shall collect safety information and shall investigate laws and regulations at the place, organizations, countries, etc. where the substance is actually used and give the highest priority to them. The Company shall take no responsibility for investigating state and local regulations and the user shall handle this problem on his/her own responsibility. In the event that SDS in Japanese and SDS translated into other languages exist, the document described in Japanese is prior to all other documents whether or not there is any difference in contents, and documents in other languages shall be references.
