

# **Paraffin (56-58)**

## Hayashi Pure Chemical Ind.,Ltd.

Date of issue: 4/25/2008 Revision date: 8/18/2023 SDS code: E9-13 Version: 07

## Safety Data Sheet

## 1. Chemical product and company identification

Product name : Paraffin (56-58)

**SDS code** : E9-13

Company/undertaking

identification

HAYASHI PURE CHEMICAL IND.,LTD.

Address: 3-2-12 Uchihiranomachi, Chuo-ku, Osaka, Osaka, Japan

Telephone: 06-6910-7305

E-mail: shiyaku\_kikaku@hpc-j.co.jp URL: https://www.hpc-j.co.jp/

Emergency number : 06-6910-7305

**Recommended use** : For research and experimental use only.

Restrictions on use : Do not use on a human body or for animal medicines, foods, household

products, cosmetics, etc.

#### 2. Hazards identification

#### **GHS** classification

Physical hazards Explosives No classification

Flammable gases

Aerosol

Oxidizing gases

Gases under pressure

Flammable liquids

No classification

No classification

No classification

No classification

Flammable solids classification not possible

Self-reactive substances and

mixtures

No classification

Pyrophoric liquids No classification
Pyrophoric solids No classification

Self-heating substances and

mixtures

classification not possible

Substances and mixtures which in contact with water emit flammable

gases

No classification

Oxidizing liquids No classification
Oxidizing solids No classification
Organic peroxides No classification

Corrosive to metals classification not possible Desensitized explosives classification not possible

Health hazards Acute toxicity (oral) No classification

Acute toxicity (dermal) No classification
Acute toxicity (inhalation:gas) No classification

Acute toxicity (inhalation:vapors) classification not possible Acute toxicity (inhalation:dust/mist) classification not possible

Skin corrosion/irritation No classification
Serious eye damage/eye irritation Category 2B

Respiratory sensitization classification not possible Skin sensitization classification not possible Germ cell mutagenicity classification not possible Carcinogenicity classification not possible Reproductive toxicity classification not possible

Specific target organ toxicity (single Category 3 (Respiratory tract irritation.)

exposure)

Revision date: 8/18/2023 SDS code: E9-13 Version: 07

Specific target organ toxicity

(repeated exposure)

classification not possible

Aspiration hazard

classification not possible classification not possible

classification not possible

Environmental hazards

Hazardous to the aquatic

environment, short-term (acute)

Hazardous to the aquatic environment, long-term (chronic)

Hazardous to the ozone layer classification not possible

Hazard pictograms (GHS JP)

Signal word (GHS JP) Warning

Hazard statements (GHS JP) Causes eye irritation (H320)

May cause respiratory irritation (H335)

Precautionary statements (GHS JP)

Avoid breathing dust/fume/gas/mist/vapors/spray. (P261) Prevention

Wash hands, forearms and face thoroughly after handling. (P264)

Use only outdoors or in a well-ventilated area. (P271)

IF INHALED: Remove person to fresh air and keep comfortable for Response

breathing (P304+P340)

IF IN EYES: Rinse cautiously with water for several minutes. Remove

contact lenses, if present and easy to do. Continue rinsing.

(P305+P351+P338)

Call a POISON CENTER or doctor if you feel unwell. (P312) If eye irritation persists: Get medical advice/attention. (P337+P313)

Store in a well-ventilated place. Keep container tightly closed. Storage

(P403+P233)

Store locked up. (P405)

Dispose of contents/container to hazardous or special waste collection Disposal

point, in accordance with local, regional, national and/or international

regulation. (P501)

## 3. Composition/information on ingredients

Distinction of substance or mixture Substance Paraffin wax Synonyms

	Concentration or		Kanpo number		
Name Concentration range	Formula	CSCL no	ISHL no	CAS RN	
Solid paraffin	100%	CnH2n+2	(8)-414	-	8002-74-2

The above concentration or concentration range are not product specification.

All percentages listed in the above concentration or concentration range are wt%, unless otherwise specified.

## 4. First aid measures

#### First aid measures

First-aid measures after inhalation Remove person to fresh air and keep comfortable for breathing.

Get immediate medical advice/attention.

First-aid measures after skin

contact

Remove/Take off immediately all contaminated clothing.

Gently wash with plenty of soap and water.

Get immediate medical advice/attention.

First-aid measures after eye

contact

IF IN EYES: Rinse cautiously with water for several minutes. Remove

contact lenses, if present and easy to do. Continue rinsing.

Get immediate medical advice/attention.

Rinse mouth. First-aid measures after ingestion

Get immediate medical advice/attention.

Revision date: 8/18/2023 SDS code: E9-13 Version: 07

Do not use a heavy water stream.

5. Fire fighting measures

Suitable extinguishing media : Use proper extinguishing media depending on peripheral fire, Water

spray, Foam, Carbon dioxide, Dry powder, Sand.

Unsuitable extinguishing media

Hazardous decomposition products

in case of fire

Firefighting instructions

: In case of fire, product may produce irritative or toxic fumes/gases.

fire at a stroke using appropriate fire-extinguishers.

In the case of peripheral fire, quickly remove movable containers to safe

If ignited, for the initial fire-fighting, cut off combustion sources, extinguish

places.

If unable to be moved containers, sprinkle water to containers and

surrounding equipment, etc. to cool.

Protection during firefighting : Wear appropriate fire-resistant clothing including self contained-

compressed air breathing apparatus.

## 6. Accidental release measures

Personal Precautions, Protective Equipment and Emergency Procedures

General measures : Before entering, ventilate the area.

Do not let unauthorized persons come close to the area.

Immediately place the leakage area in isolation, with taking proper

distances for all directions.

Wear appropriate personal protective devices to prevent inhalation and contact with eye, skin, and clothing, and never attempt to work on the lee.

**Environmental precautions** 

Environmental precautions : Avoid release to the environment.

Prevent entry to sewers and public waters.

Methods and Equipment for Containment and Cleaning up

Methods for cleaning up : Take care not to generate dust, sweep it up as much as possible, collect it

in an empty container that can be sealed, and move it to a safe place.

Wash out the spilled area with large amounts of water.

## 7. Handling and storage

Handling

Technical measures : Work with appropriate personal protective equipment to prevent inhalation

or contact to eyes, skin, and clothing.

Handle with care to prevent leakage, overflowing, or scattering, minimize

generation of mist or vapor, and thoroughly ventilate.

Precautions for safe handling : Do not eat, drink or smoke when using this product.

Thoroughly wash your hands and gargle after handling.

Ensure good ventilation of the work station.

Do not contact, breathe or swallow.

Prevents handling of incompatible

substances or mixtures

Avoid prolonged or repeated exposure.

**Storage** 

Storage conditions : Store locked up.

Store in a well-ventilated place, away from direct sunlight. Keep container

tightly closed and keep away from fire and heat sources.

Material used in

packaging/containers

Light shielding airtight container.

Technical measures : Comply with applicable regulations.

Storage temperature : Cool and dark place

# 8. Exposure controls / Personal protection equipment

Exposure limit values		
Solid paraffin		
Exposure limits (ACGIH)	TWA 2 mg/m3,STEL -	

Revision date: 8/18/2023 SDS code: E9-13 Version: 07

Appropriate engineering controls : Cover up tightly the generation source at the handling place or install local

exhaust equipment or overall ventilation equipment. Install safety showers and eye-fountains near a handling place. Clearly indicate the location.

**Protective equipment** 

Respiratory protection : Dustproof mask
Hand protection : Protective gloves

Eye protection : Protective glasses (general glasses, glasses with side-shields, goggles)

Skin and body protection : Protective clothing, Protective boots, Protective apron

#### 9. Physical and chemical properties

Physical state : Solid
Appearance : Solid
Color : white
Odor : Odorless

pH : No data available Melting point :  $56 - 58 \, ^{\circ}\mathrm{C}$  Freezing point : No data available

Boiling point : 345.1 °C

Flash point : 200 °C (seta closed cup)

Auto-ignition temperature : No data available
Decomposition temperature : No data available
Flammability (solid, gas) : No data available
Vapor pressure : No data available
Relative density : No data available
Density : 0.9 g/cm³ (20°C)
Relative gas density : No data available

Solubility : Insoluble in water. Soluble in many organic solvents.

Partition coefficient n-

octanol/water (Log Pow)

No data available

Explosive limits (vol %) : No data available Viscosity, kinematic : No data available Particle characteristics : No data available

## 10. Stability and reactivity

Reactivity : No data available

Chemical stability : Stable under normal handling conditions.

Possibility of hazardous reactions : If water is mixed in, bumping may occur at 100 °C or higher. Reacts with

strong oxidizing agents.

Conditions to avoid : Sunlight, heat. Ignition sources such as spark, flame and static electricity.

Contact with strong oxidizing agents.

Incompatible materials : Strong oxidizing agents Hazardous decomposition : No data available

products

# 11. Toxicological information

The information in this section is based on the "GHS Classification Results" by NITE.

Solid paraffin	
Acute toxicity (oral)	No classification
Acute toxicity (dermal)	No classification
Acute toxicity (gas)	No classification
Acute toxicity (vapour)	classification not possible
Acute toxicity (inhalation:dust/mist)	classification not possible
Skin corrosion/irritation	No classification
Serious eye damage/irritation	Category 2B
Respiratory sensitization	classification not possible
Skin sensitization	classification not possible

Revision date: 8/18/2023 SDS code: E9-13 Version: 07

Solid paraffin		
Germ cell mutagenicity	classification not possible	
Carcinogenicity	classification not possible	
Reproductive toxicity	classification not possible	
STOT-single exposure	Category 3 (Respiratory tract irritation.)	
STOT-repeated exposure	classification not possible	
Aspiration hazard	classification not possible	

# 12. Ecological information

The information in this section is based on the "GHS Classification Results" by NITE.

Solid paraffin		
Hazardous to Aquatic Environment - Acute Hazard	classification not possible	
Hazardous to Aquatic Environment - Chronic Hazard	classification not possible	
Persistence and degradability	No data available	
Bioaccumulative potential	No data available	
Mobility in soil	No data available	
Hazardous to the ozone layer	classification not possible	

# 13. Disposal considerations

Ecology - waste materials : With the detail information of the waste, subcontract its disposal to a

waste disposer authorized by a Prefectural Governor.

Contaminated container and

packaging

Empty the packaging completely prior to disposal.

Empty containers should be taken for recycle, recovery or waste in

accordance with local regulation.

#### 14. Transport information

#### International Regulations

#### Transport by sea(IMDG)

UN-No. (IMDG) : Not applicable Proper Shipping Name (IMDG) : Not applicable Packing group (IMDG) : Not applicable Transport hazard class(es) (IMDG) : Not applicable

Air transport(IATA)

UN-No. (IATA) : Not applicable
Proper Shipping Name (IATA) : Not applicable
Packing group (IATA) : Not applicable
Transport hazard class(es) (IATA) : Not applicable

Marine pollutant : Not applicable

Regulations in Japan

Regulatory information by sea : Not applicable Regulatory information by air : Not applicable

**Special transport precautions**: When transporting, load containers so that they do not tip over,

damage, drop or collapse. Make sure there is no leak in containers.

#### 15. Regulatory information

#### **National law**

Industrial Safety and Health Law : Harmful Substances Whose Names Are to be Indicated on the Label

(Law Art.57, Para.1, Enforcement Order Art.18 Item 1, Item 2,

Attached Table No.9)

Notifiable Substances (Law Art.57-2, Enforcement Order Art.18-2

Item 1, Item 2, Attached Table No.9)
Paraffin wax (Ordinance number: 170)

Japanese Poisonous and

Deleterious Substances Control Law

Not applicable

Revision date: 8/18/2023 SDS code: E9-13 Version: 07

Fire Service Law

Designated Combustible Substances - Combustible solids (Law Art.9-4, Cabinet Order on Hazardous Materials Art Art.1-12, Attached Table No.4)

Law Relating to Prevention of Marine Pollution and Maritime Noxious Liquid Substances - Category Y (Law Art.3(3), Enforcement Order, Art.1-2, Attached Table No.1 Item 2)

Disasters

Foreign Exchange and Foreign Trade Control Act

Export Trade Control Ordinance appendix 1-16

Japanese Pollutant Release and Transfer Register Law (PRTR Law) Not applicable

Labor Standards Act

Carcinogens (Act Art.75, Para.2, Ordinance Attached Table 1-2, Item 7)
