

# 0.05mol/L Zinc(II) sulfate solution

Hayashi Pure Chemical Ind.,Ltd. Revision date: 9/7/2020

Date of issue: 6/6/2011

SDS code: F8-20

Version: 05

## Safety Data Sheet

## 1. Chemical product and company identification

| Product name<br>SDS code | :<br>:              | 0.05mol/L Zinc(II) sulfate solution<br>F8-20   |
|--------------------------|---------------------|--|
|                          | ma<br>lanı<br>oc-j. | chi, Chuo-ku, Osaka, Osaka, Japan<br>ning Group, Reagent & Chemical Product Department |
| Emergency number         | :                   | 06-6910-7305   |

#### 2. Hazards identification

#### **GHS** classification

| Physical hazards | Desensitized eplosives   | classification not possible |
|------------------|--|-----------------------------|
|                  | Explosives   | classification not possible |
|                  | Flammable gases  | No classification           |
|                  | Aerosol  | classification not possible |
|                  | Oxidizing gases  | No classification           |
|                  | Gases under pressure   | No classification           |
|                  | Flammable liquids  | classification not possible |
|                  | Flammable solids   | No classification           |
|                  | Self-reactive substances and mixtures                                    | classification not possible |
|                  | Pyrophoric liquids   | classification not possible |
|                  | Pyrophoric solids  | No classification           |
|                  | Self-heating substances and<br>mixtures                                  | classification not possible |
|                  | Substances and mixtures which in contact with water emit flammable gases | classification not possible |
|                  | Oxidizing liquids  | classification not possible |
|                  | Oxidizing solids   | No classification           |
|                  | Organic peroxides  | classification not possible |
|                  | Corrosive to metals  | classification not possible |
| Health hazards   | Acute toxicity (oral)  | No classification           |
|                  | Acute toxicity (dermal)  | classification not possible |
|                  | Acute toxicity (inhalation:gas)  | classification not possible |
|                  | Acute toxicity (inhalation:vapors)                                       | No classification           |
|                  | Acute toxicity (inhalation:dust/mist)                                    | classification not possible |
|                  | Skin corrosion/irritation  | No classification           |
|                  | Serious eye damage/eye irritation  | No classification           |
|                  | Respiratory sensitization  | classification not possible |
|                  | Skin sensitization   | classification not possible |
|                  | Germ cell mutagenicity   | classification not possible |
|                  | Carcinogenicity  | classification not possible |
|                  | Reproductive toxicity  | No classification           |
|                  | Specific target organ toxicity (single exposure)                         | No classification           |
|                  | Specific target organ toxicity<br>(repeated exposure)                    | No classification           |
|                  | Aspiration hazard  | classification not possible |

| Environmental<br>hazards | Hazardous to the aquatic environment, short-term (acute)     |  | Category 2   |
|--------------------------|--|--|--|
|                          | Hazardous to the aquatic<br>environment, long-term (chronic) |  | Category 3   |
|                          | Hazardous to the   | e ozone layer                            | classification not possible  |
| Hazard statements (G     | iHS JP) :  | Toxic to aquatic li<br>Harmful to aquati | fe (H401)<br>c life with long lasting effects (H412)   |
| Precautionary stateme    | ents (GHS JP)  |  |  |
| Prevention               | :  | Avoid release to t                       | he environment. (P273)   |
| Disposal                 | :  | •  | nts/container to hazardous or special waste collection<br>ice with local, regional, national and/or international<br>) |

### 3. Composition/information on ingredients

Distinction of substance or mixture : Mixture

|              | Concentration or       |         | Kanpo   |           |           |
|--------------|------------------------|---------|---------|-----------|-----------|
| Name         | Concentration<br>range | Formula | CSCL no | ISHL no   | CAS RN    |
| Zinc sulfate | About 0.81%            | ZnSO4   | (1)-542 | 1-(3)-223 | 7733-02-0 |
| Water        | About 99.19%           | H2O     | -       | -         | 7732-18-5 |

The above concentration or concentration range are not product specification. All percentages listed in the above concentration or concentration range are mass%, unless otherwise specified.

### 4. First aid measures

#### First aid measures

| First-aid measures after inhalation     | : | Remove person to fresh air and keep comfortable for breathing.<br>Get immediate medical advice/attention.                        |
|---|---|--|
| First-aid measures after skin           | : | Remove/Take off immediately all contaminated clothing.   |
| contact                                 |   | Gently wash with plenty of soap and water.   |
|   |   | Get immediate medical advice/attention.  |
| First-aid measures after eye<br>contact | : | IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. |
|   |   | Get immediate medical advice/attention.  |
| First-aid measures after ingestion      | : | Rinse mouth.   |
|   |   | Get immediate medical advice/attention.  |

### 5. Fire fighting measures

| Suitable extinguishing media                     | : | Use proper extinguishing media depending on peripheral fire.   |
|--|---|--|
| Unsuitable extinguishing media                   | : | Do not use a heavy water stream.   |
| Fire hazard                                      | : | This product is unburnable.  |
| Hazardous decomposition products in case of fire | : | In case of fire, product may produce irritative or toxic fumes/gases.  |
| Firefighting instructions                        | : | If ignited, for the initial fire-fighting, cut off combustion sources, extinguish fire at a stroke using appropriate fire-extinguishers. |
|  |   | In the case of peripheral fire, quickly remove movable containers to safe places.  |
|  |   | If unable to be moved containers, sprinkle water to containers and surrounding equipment, etc. to cool.                                  |
| Protection during firefighting                   | : | Wear appropriate fire-resistant clothing including self contained-<br>compressed air breathing apparatus.                                |

#### 6. Accidental release measures

|  | ⊏qu      | ipment and Emergency Procedures  |
|--|----------|--|
| General measures   | :        | Before entering, ventilate the area.   |
|  |          | Do not let unauthorized persons come close to the area.  |
|  |          | Immediately place the leakage area in isolation, with taking proper distances for all directions.  |
|  |          | Wear appropriate personal protective devices to prevent inhalation and contact with eye, skin, and clothing, and never attempt to work on the lee.       |
| Environmental precautions                                |          |  |
| Environmental precautions                                | :        | Avoid release to the environment.  |
|  |          | Prevent entry to sewers and public waters.   |
| Methods and Equipment for Cont                           | ainm     | nent and Cleaning up   |
| Methods for cleaning up                                  | :        | Clean up any spills as soon as possible, using an absorbent material to collect it.  |
|  |          | Collect leaking and spilled liquid in sealable containers as far as possible.  |
|  |          | Wash out the spilled area with large amounts of water.   |
| 7. Handling and storage                                  |          |  |
| Handling   |          |  |
| Technical measures                                       | :        | Work with appropriate personal protective equipment to prevent inhalation<br>or contact to eyes, skin, and clothing.                                     |
|  |          | Handle with care to prevent leakage, overflowing, or scattering, minimize generation of mist or vapor, and thoroughly ventilate.                         |
| Precautions for safe handling                            | :        | Do not eat, drink or smoke when using this product.  |
|  |          | Thoroughly wash your hands and gargle after handling.  |
|  |          | Ensure good ventilation of the work station.   |
|  |          | Do not contact, breathe or swallow.  |
| Prevents handling of incompatible substances or mixtures | :        | Avoid prolonged or repeated exposure.  |
| Storage  |          |  |
| Storage conditions                                       | :        | Store locked up.   |
| 0  |          | Store in a well-ventilated place, away from direct sunlight. Keep container tightly closed and keep away from fire and heat sources.                     |
| Material used in<br>packaging/containers                 | :        | Airtight container.  |
| Technical measures                                       | :        | Comply with applicable regulations.  |
| Storage temperature                                      | :        | Cool and dark place  |
| 8. Exposure controls / Pe                                | rso      | nal protection equipment   |
| Appropriate engineering controls                         | : C<br>e | Cover up tightly the generation source at the handling place or install local exhaust equipment or overall ventilation equipment. Install safety showers |

|                          | and eye-fountains near a handling place. Clearly indicate the location.    |
|--------------------------|--|
| Protective equipment     |  |
| Respiratory protection   | : Protective mask  |
| Hand protection          | : Impervious protective gloves   |
| Eye protection           | : Protective glasses (general glasses, glasses with side-shields, goggles) |
| Skin and body protection | : Impervious aprons, Impervious work clothing, Protective long boots       |

## 9. Physical and chemical properties

| Physical state | : | Liquid                |
|----------------|---|-----------------------|
| Appearance     | : | Liquid                |
| Color          | : | colorless transparent |
| Odor           | : | Odorless              |
| рН             | : | 5.5 (25°C)            |
| Melting point  | : | No data available     |

| : | No data available |
|---|-------------------|
| : | No data available |
| : | 1.00 g/cm3 (20°C) |
| : | No data available |
|   |                   |

## 10. Stability and reactivity

| Reactivity                          | : | No data available                                     |
|-------------------------------------|---|---|
| Chemical stability                  | : | Stable under normal handling conditions.              |
| Possibility of hazardous reactions  | : | Reacts with strong oxidizing agents.                  |
| Conditions to avoid                 | : | Sunlight, heat. Contact with strong oxidizing agents. |
| Incompatible materials              | : | Strong oxidizing agents                               |
| Hazardous decomposition<br>products | : | Sulfur oxides, Zinc oxides                            |

## **11. Toxicological information**

The information in this section is based on the "GHS Classification Results" by NITE.

| As a product                                  |   |
|---|---|
| Acute toxicity (oral)                         | No classification                             |
| Acute toxicity (dermal)                       | classification not possible                   |
| Acute toxicity (inhalation)                   | vapors:No classification                      |
|   | Gases:classification not possible             |
|   | dust, mist:classification not possible        |
| Skin corrosion/irritation                     | No classification                             |
| Serious eye damage/irritation                 | No classification                             |
| Respiratory sensitization                     | classification not possible                   |
| Skin sensitization                            | classification not possible                   |
| Germ cell mutagenicity                        | classification not possible                   |
| Carcinogenicity                               | classification not possible No classification |
| Reproductive toxicity<br>STOT-single exposure | No classification                             |
| STOT-repeated exposure                        | No classification                             |
