Firefighting instructions	:	If ignited, for the initial fire-fighting, cut off combustion sources, extinguish fire at a stroke using appropriate fire-extinguishers.
		In the case of peripheral fire, quickly remove movable containers to safe places.
		If unable to be moved containers, sprinkle water to containers and surrounding equipment, etc. to cool.
		Avoid (reject) fire-fighting water to enter environment.
		Even after extinguishing fire, thoroughly cool containers by using plenty of water.
Protection during firefighting	:	Wear appropriate fire-resistant clothing including self contained- compressed air breathing apparatus.

6. Accidental release measures

Personal Precautions, Protective Equipment and Emergency Procedures

General measures :	Before entering, ventilate the area.			
	Do not let unauthorized persons come close to the area.			
	Immediately place the leakage area in isolation, with taking proper distances for all directions.			
	Wear appropriate personal protective devices to prevent inhalation and contact with eye, skin, and clothing, and never attempt to work on the lee.			
Environmental precautions				
Environmental precautions :	Avoid release to the environment.			
	Prevent entry to sewers and public waters.			
Methods and Equipment for Containr	nent and Cleaning up			
Methods for cleaning up :	Clean up any spills as soon as possible, using an absorbent material to collect it.			
	Collect leaking and spilled liquid in sealable containers as far as possible.			
	Wash out the spilled area with large amounts of water.			
7. Handling and storage
