## Safety Data Sheet

### 1. Chemical product and company identification

**Product name** : Sodium thiocyanate

**SDS code** : L6-11

**Company/undertaking identification** :

HAYASHI PURE CHEMICAL IND.,LTD.

Address : 3-2-12 Uchihiranomachi, Chuo-ku, Osaka, Osaka, Japan

Telephone : 06-6910-7305

E-mail : shiyaku\_kikaku@hpc-j.co.jp

URL : <https://www.hpc-j.co.jp/>

**Emergency number** : 06-6910-7305

**Recommended use** : For research and experimental use only.

**Restrictions on use** : Do not use on a human body or for animal medicines, foods, household products, cosmetics, etc.

### 2. Hazards identification

#### GHS classification

|  |  |                                 |                             |
|--|--|---------------------------------|-----------------------------|
| Physical hazards                                 | Desensitized explosives  | classification not possible     |                             |
|  | Explosives   | No classification               |                             |
|  | Flammable gases  | No classification               |                             |
|  | Aerosol  | No classification               |                             |
|  | Oxidizing gases  | No classification               |                             |
|  | Gases under pressure   | No classification               |                             |
|  | Flammable liquids  | No classification               |                             |
|  | Flammable solids   | No classification               |                             |
|  | Self-reactive substances and mixtures                                    | No classification               |                             |
|  | Pyrophoric liquids   | No classification               |                             |
|  | Pyrophoric solids  | No classification               |                             |
|  | Self-heating substances and mixtures                                     | No classification               |                             |
|  | Substances and mixtures which in contact with water emit flammable gases | No classification               |                             |
|  | Oxidizing liquids  | No classification               |                             |
|  | Oxidizing solids   | No classification               |                             |
|  | Organic peroxides  | No classification               |                             |
|  | Corrosive to metals  | classification not possible     |                             |
|  | Health hazards   | Acute toxicity (oral)           | Category 4                  |
|  |  | Acute toxicity (dermal)         | classification not possible |
|  |  | Acute toxicity (inhalation:gas) | No classification           |
| Acute toxicity (inhalation:vapors)               |  | No classification               |                             |
| Acute toxicity (inhalation:dust/mist)            |  | classification not possible     |                             |
| Skin corrosion/irritation                        |  | classification not possible     |                             |
| Serious eye damage/eye irritation                |  | No classification               |                             |
| Respiratory sensitization                        |  | classification not possible     |                             |
| Skin sensitization                               |  | classification not possible     |                             |
| Germ cell mutagenicity                           |  | classification not possible     |                             |
| Carcinogenicity                                  | classification not possible  |                                 |                             |
| Reproductive toxicity                            | classification not possible  |                                 |                             |
| Specific target organ toxicity (single exposure) | classification not possible  |                                 |                             |

|                       |   |                             |
|-----------------------|---|-----------------------------|
| Environmental hazards | Specific target organ toxicity (repeated exposure)        | Category 1 (thyroid gland)  |
|                       | Aspiration hazard   | classification not possible |
|                       | Hazardous to the aquatic environment, short-term (acute)  | Category 3                  |
|                       | Hazardous to the aquatic environment, long-term (chronic) | Category 3                  |
|                       | Hazardous to the ozone layer                              | classification not possible |

Hazard pictograms (GHS JP)

GHS07

GHS08

|                                   |   |
|-----------------------------------|---|
| Signal word (GHS JP)              | : Danger  |
| Hazard statements (GHS JP)        | : Harmful if swallowed (H302)<br>Causes damage to organs (thyroid gland) through prolonged or repeated exposure (H372)<br>Harmful to aquatic life with long lasting effects (H412)  |
| Precautionary statements (GHS JP) |   |
| Prevention                        | : Do not breathe dust/fume/gas/mist/vapors/spray. (P260)<br>Wash hands, forearms and face thoroughly after handling. (P264)<br>Do not eat, drink or smoke when using this product. (P270)<br>Avoid release to the environment. (P273) |
| Response                          | : IF SWALLOWED: Call a POISON CENTER or doctor if you feel unwell. (P301+P312)<br>Get medical advice/attention if you feel unwell. (P314)<br>Rinse mouth. (P330)  |
| Disposal                          | : Dispose of contents/container to hazardous or special waste collection point, in accordance with local, regional, national and/or international regulation. (P501)  |

### 3. Composition/information on ingredients

Distinction of substance or mixture : Substance

| Name               | Concentration or Concentration range | Formula | Kanpo number |                             | CAS RN   |
|--------------------|--------------------------------------|---------|--------------|-----------------------------|----------|
|                    |                                      |         | CSCL no      | ISHL no                     |          |
| Sodium thiocyanate | ≥98.0%, ≤100%                        | NaSCN   | (1)-160      | Existing Chemical Substance | 540-72-7 |

The above concentration or concentration range are not product specification.  
All percentages listed in the above concentration or concentration range are wt%, unless otherwise specified.

### 4. First aid measures

#### First aid measures

|                                       |   |
|---------------------------------------|---|
| First-aid measures after inhalation   | : Remove person to fresh air and keep comfortable for breathing.<br>Get immediate medical advice/attention.   |
| First-aid measures after skin contact | : Remove/Take off immediately all contaminated clothing.<br>Gently wash with plenty of soap and water.<br>Get immediate medical advice/attention.                             |
| First-aid measures after eye contact  | : IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.<br>Get immediate medical advice/attention. |
| First-aid measures after ingestion    | : Rinse mouth.<br>Get immediate medical advice/attention.   |

### 5. Fire fighting measures

Suitable extinguishing media : Use proper extinguishing media depending on peripheral fire.

---

|  |   |  |
|--|---|--|
| Unsuitable extinguishing media                   | : | Do not use a heavy water stream.   |
| Fire hazard                                      | : | This product is unburnable.  |
| Hazardous decomposition products in case of fire | : | In case of fire, product may produce irritative or toxic fumes/gases.  |
| Firefighting instructions                        | : | If ignited, for the initial fire-fighting, cut off combustion sources, extinguish fire at a stroke using appropriate fire-extinguishers.<br>In the case of peripheral fire, quickly remove movable containers to safe places.<br>If unable to be moved containers, sprinkle water to containers and surrounding equipment, etc. to cool. |
| Protection during firefighting                   | : | Wear appropriate fire-resistant clothing including self contained-compressed air breathing apparatus.  |

## 6. Accidental release measures

### Personal Precautions, Protective Equipment and Emergency Procedures

|                  |   |  |
|------------------|---|--|
| General measures | : | Before entering, ventilate the area.<br>Do not let unauthorized persons come close to the area.<br>Immediately place the leakage area in isolation, with taking proper distances for all directions.<br>Wear appropriate personal protective devices to prevent inhalation and contact with eye, skin, and clothing, and never attempt to work on the lee. |
|------------------|---|--|

### Environmental precautions

|                           |   |   |
|---------------------------|---|---|
| Environmental precautions | : | Avoid release to the environment.<br>Prevent entry to sewers and public waters. |
|---------------------------|---|---|

### Methods and Equipment for Containment and Cleaning up

|                         |   |  |
|-------------------------|---|--|
| Methods for cleaning up | : | Take care not to generate dust, sweep it up as much as possible, collect it in an empty container that can be sealed, and move it to a safe place.<br>Wash out the spilled area with large amounts of water. |
|-------------------------|---|--|

## 7. Handling and storage

### Handling

|  |   |   |
|--|---|---|
| Technical measures                                       | : | Work with appropriate personal protective equipment to prevent inhalation or contact to eyes, skin, and clothing.<br>Handle with care to prevent leakage, overflowing, or scattering, minimize generation of mist or vapor, and thoroughly ventilate. |
| Precautions for safe handling                            | : | Do not eat, drink or smoke when using this product.<br>Thoroughly wash your hands and gargle after handling.<br>Ensure good ventilation of the work station.<br>Do not contact, breathe or swallow.   |
| Prevents handling of incompatible substances or mixtures | : | Avoid prolonged or repeated exposure.   |

### Storage

|                                       |   |  |
|---------------------------------------|---|--|
| Storage conditions                    | : | Store locked up.<br>Store in a well-ventilated place, away from direct sunlight. Keep container tightly closed and keep away from fire and heat sources. |
| Material used in packaging/containers | : | Airtight container.  |
| Technical measures                    | : | Comply with applicable regulations.  |
| Storage temperature                   | : | Cool and dark place  |

## 8. Exposure controls / Personal protection equipment

|                                  |   |  |
|----------------------------------|---|--|
| Appropriate engineering controls | : | Cover up tightly the generation source at the handling place or install local exhaust equipment or overall ventilation equipment. Install safety showers and eye-fountains near a handling place. Clearly indicate the location. |
|----------------------------------|---|--|

### Protective equipment

|                        |   |                              |
|------------------------|---|------------------------------|
| Respiratory protection | : | Dustproof mask               |
| Hand protection        | : | Impervious protective gloves |

Eye protection : Protective glasses (general glasses, glasses with side-shields, goggles)  
 Skin and body protection : Impervious aprons, Impervious work clothing, Impervious long boots

## 9. Physical and chemical properties

Physical state : Solid  
 Appearance : Crystals  
 Color : colorless  
 Odor : Odorless  
 pH : 5.3 – 8.5 (50g/L, 25°C)  
 Melting point : 287 °C  
 Freezing point : No data available  
 Boiling point : No data available  
 Flash point : No data available  
 Auto-ignition temperature : No data available  
 Decomposition temperature : No data available  
 Flammability : No data available  
 Vapor pressure : No data available  
 Relative density : No data available  
 Density : 1.73 g/cm<sup>3</sup> (20°C)  
 Relative gas density : No data available  
 Solubility : No data available  
 Partition coefficient n-octanol/water (Log Pow) : No data available  
 Explosive limits (vol %) : No data available  
 Viscosity, kinematic : No data available  
 Particle characteristics : No data available

## 10. Stability and reactivity

Reactivity : No data available  
 Chemical stability : Stable under normal handling conditions. Shows deliquescent.  
 Possibility of hazardous reactions : Decomposes in fire or on exposure to light producing sulfur and nitrogen oxides. Reacts with acids, strong oxidizing agents and strong bases.  
 Conditions to avoid : Sunlight, moisture, heat. Contact with acids, strong oxidizing agents and strong bases.  
 Incompatible materials : Acids, Strong oxidizing agents, Strong bases  
 Hazardous decomposition products : Nitrogen oxides, Sulfur oxides, Cyanides

## 11. Toxicological information

The information in this section is based on the "GHS Classification Results" by NITE.

| Sodium thiocyanate                    |                             |
|---------------------------------------|-----------------------------|
| Acute toxicity (oral)                 | Category 4                  |
| Acute toxicity (dermal)               | classification not possible |
| Acute toxicity (gas)                  | No classification           |
| Acute toxicity (vapour)               | classification not possible |
| Acute toxicity (inhalation:dust/mist) | classification not possible |
| Skin corrosion/irritation             | classification not possible |
| Serious eye damage/irritation         | No classification           |
| Respiratory sensitization             | classification not possible |
| Skin sensitization                    | classification not possible |
| Germ cell mutagenicity                | classification not possible |
| Carcinogenicity                       | classification not possible |
| Reproductive toxicity                 | classification not possible |
| STOT-single exposure                  | classification not possible |
| STOT-repeated exposure                | Category 1                  |

| Sodium thiocyanate |                             |
|--------------------|-----------------------------|
| Aspiration hazard  | classification not possible |

## 12. Ecological information

The information in this section is based on the "GHS Classification Results" by NITE.

| Sodium thiocyanate                                |                             |
|---|-----------------------------|
| Hazardous to Aquatic Environment - Acute Hazard   | Category 3                  |
| Hazardous to Aquatic Environment - Chronic Hazard | Category 3                  |
| Persistence and degradability                     | No data available           |
| Bioaccumulative potential                         | No data available           |
| Mobility in soil                                  | No data available           |
| Hazardous to the ozone layer                      | classification not possible |

## 13. Disposal considerations

- Ecology - waste materials : With the detail information of the waste, subcontract its disposal to a waste disposer authorized by a Prefectural Governor.
- Contaminated container and packaging : Empty the packaging completely prior to disposal.  
Empty containers should be taken for recycle, recovery or waste in accordance with local regulation.

## 14. Transport information

### International Regulations

#### Transport by sea(IMDG)

- UN-No. (IMDG) : Not applicable  
 Proper Shipping Name (IMDG) : Not applicable  
 Packing group (IMDG) : Not applicable  
 Transport hazard class(es) (IMDG) : Not applicable

#### Air transport(IATA)

- UN-No. (IATA) : Not applicable  
 Proper Shipping Name (IATA) : Not applicable  
 Packing group (IATA) : Not applicable  
 Transport hazard class(es) (IATA) : Not applicable

- Marine pollutant : Not applicable

#### Regulations in Japan

- Regulatory information by sea : Not applicable  
 Regulatory information by air : Not applicable

- Special transport precautions : When transporting, load containers so that they do not tip over, damage, drop or collapse. Make sure there is no leak in containers.

## 15. Regulatory information

### National law

- Industrial Safety and Health Law : **【Date of enforcement: April 1, 2025】**  
 Dangerous or Harmful Substances for Labeling of Chemical Name etc. (Act Art.57 Para.1, Enforcement Order, Art.18)  
 Dangerous or Harmful Substances for Notification of Chemical Name etc. on SDS (Act, Art.57-2, Enforcement Order, Art.18-2)  
 Sodium thiocyanate
- Japanese Poisonous and Deleterious Substances Control Law : Not applicable
- Fire Service Law : Not applicable
- Foreign Exchange and Foreign Trade Control Act : Export Trade Control Ordinance appendix 1-16
- Japanese Pollutant Release and Transfer Register Law (PRTR Law) : Not applicable

## 16. Other information

- Data sources : Handbook of 17524 Chemical Products, The Chemical Daily Co, Ltd.  
International Chemical Safety Cards.  
National Institute of Technology and Evaluation (NITE).  
2020 Emergency Response Guidebook (ERG 2020).
- Other information : The SDS is copyrighted material of Hayashi Pure Chemical Ind, Ltd.  
This Safety Data Sheet is intended to be provided for business operators who handle chemical substance products of the relevant product and is not intended to assure safety in any way. The Safety Data Sheet does not verify all the information on the applicable chemical substance in the present time. With the recognition in that unknown danger constantly exists in the relevant chemical substance, the product shall be used in the principle of self-responsibility of the user with the highest priority to safety from transport and unpacking to disposal. When the relevant chemical substance is used, the user him/herself shall collect safety information and shall investigate laws and regulations at the place, organizations, countries, etc. where the substance is actually used and give the highest priority to them. The Company shall take no responsibility for investigating state and local regulations and the user shall handle this problem on his/her own responsibility. In the event that SDS in Japanese and SDS translated into other languages exist, the document described in Japanese is prior to all other documents whether or not there is any difference in contents, and documents in other languages shall be references.
