

# 26% Sodium hydroxide solution

Hayashi Pure Chemical Ind.,Ltd. Revision date: 8/22/2023

Date of issue: 2/3/2022

SDS code: RB-09

Version: 02

## Safety Data Sheet

## 1. Chemical product and company identification

| Product name  | 26% Sodium hydroxi                           | de solution   |
|---|--|---|
| SDS code  | RB-09  |   |
| Company/undertaking<br>identification<br>HAYASHI PURE CHEMICA<br>Address : 3-2-12 Uchihirar<br>Telephone : 06-6910-7305<br>E-mail : shiyaku_kikaku@URL : https://www.hpc-j.cc | ni, Chuo-ku, Osaka, C                        | Dsaka, Japan  |
| Emergency number  | 06-6910-7305                                 |   |
| Recommended use   | For research and exp                         | erimental use only.                                       |
| Restrictions on use   | Do not use on a huma<br>products, cosmetics, | an body or for animal medicines, foods, household<br>etc. |

## 2. Hazards identification

#### **GHS classification**

| GHS classification |  |                                 |
|--------------------|--|---------------------------------|
| Physical hazards   | Explosives   | classification not possible     |
|                    | Flammable gases  | No classification               |
|                    | Aerosol  | classification not possible     |
|                    | Oxidizing gases  | No classification               |
|                    | Gases under pressure   | No classification               |
|                    | Flammable liquids  | classification not possible     |
|                    | Flammable solids   | No classification               |
|                    | Self-reactive substances and<br>mixtures                                 | classification not possible     |
|                    | Pyrophoric liquids   | classification not possible     |
|                    | Pyrophoric solids  | No classification               |
|                    | Self-heating substances and<br>mixtures                                  | classification not possible     |
|                    | Substances and mixtures which in contact with water emit flammable gases | classification not possible     |
|                    | Oxidizing liquids  | classification not possible     |
|                    | Oxidizing solids   | No classification               |
|                    | Organic peroxides  | classification not possible     |
|                    | Corrosive to metals  | Category 1                      |
|                    | Desensitized explosives  | classification not possible     |
| Health hazards     | Acute toxicity (oral)  | classification not possible     |
|                    | Acute toxicity (dermal)  | classification not possible     |
|                    | Acute toxicity (inhalation:gas)  | No classification               |
|                    | Acute toxicity (inhalation:vapors)                                       | classification not possible     |
|                    | Acute toxicity (inhalation:dust/mist)                                    | classification not possible     |
|                    | Skin corrosion/irritation  | Category 1                      |
|                    | Serious eye damage/eye irritation  | Category 1                      |
|                    | Respiratory sensitization  | classification not possible     |
|                    | Skin sensitization   | No classification               |
|                    | Germ cell mutagenicity   | No classification               |
|                    | Carcinogenicity  | classification not possible     |
|                    | Reproductive toxicity  | classification not possible     |
|                    | Specific target organ toxicity (single exposure)                         | Category 1 (respiratory system) |
|                    |  |                                 |

|                                  | Specific target organ toxicity<br>(repeated exposure)  | classification not possible  |
|----------------------------------|--|--|
|                                  | Aspiration hazard  | classification not possible  |
| Environmental<br>hazards         | Hazardous to the aquatic environment, short-term (acute)   | Category 3   |
|                                  | Hazardous to the aquatic<br>environment, long-term (chronic)   | No classification  |
|                                  | Hazardous to the ozone layer   | classification not possible  |
| Hazard<br>pictograms<br>(GHS JP) |  |  |

| Storage                          | : Store locked up  | . (P405)   |
| Disposal                         | : Dispose of cont  | ve resistant container with a resistant inner liner. (P406)<br>ents/container to hazardous or special waste collection<br>ance with local, regional, national and/or international<br>11)  |

## 3. Composition/information on ingredients

Distinction of substance or mixture : Mixture

| Name             | Concentration or    | Formula  | Kanpo   | CAS RN                            |           |  |
|------------------|---------------------|----------|---------|-----------------------------------|-----------|--|
| Name             | Concentration range | Tornidia | CSCL no | ISHL no                           |           |  |
| Sodium hydroxide | About 26%           | NaOH     | (1)-410 | Existing<br>Chemical<br>Substance | 1310-73-2 |  |
| Water            | About 74%           | H2O      | -       | -                                 | 7732-18-5 |  |

The above concentration or concentration range are not product specification.

All percentages listed in the above concentration or concentration range are wt%, unless otherwise specified.

## 4. First aid measures

| First aid measures                      |   |  |
|---|---|--|
| First-aid measures after inhalation     | : | Remove person to fresh air and keep comfortable for breathing.   |
|   |   | Get immediate medical advice/attention.  |
| First-aid measures after skin           | : | Remove/Take off immediately all contaminated clothing.   |
| contact                                 |   | Gently wash with plenty of soap and water.   |
|   |   | Get immediate medical advice/attention.  |
| First-aid measures after eye<br>contact | : | IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. |
|   |   | Get immediate medical advice/attention.  |
| First-aid measures after ingestion      | : | Do NOT induce vomiting.  |
|   |   | Drink plenty of water.   |
|   |   | Rinse mouth.   |
|   |   | Get immediate medical advice/attention.  |

## 5. Fire fighting measures

| Suitable extinguishing media                        | : | Water spray, Alcohol-resistant foam, Dry powder, Carbon dioxide, Sand.   |
|---|---|--|
| Unsuitable extinguishing media                      | : | Do not use a heavy water stream.   |
| Fire hazard   | : | This product is unburnable.  |
| Explosion hazard                                    | : | May induce explosion of containers by heating.   |
| Hazardous decomposition products<br>in case of fire | : | In case of fire, product may produce irritative or toxic fumes/gases.  |
| Firefighting instructions                           | : | If ignited, for the initial fire-fighting, cut off combustion sources, extinguish fire at a stroke using appropriate fire-extinguishers. |
|   |   | In the case of peripheral fire, quickly remove movable containers to safe places.  |
|   |   | If unable to be moved containers, sprinkle water to containers and surrounding equipment, etc. to cool.                                  |
|   |   | Avoid (reject) fire-fighting water to enter environment.   |
|   |   | Even after extinguishing fire, thoroughly cool containers by using plenty of water.  |
| Protection during firefighting                      | : | Wear appropriate fire-resistant clothing including self contained-<br>compressed air breathing apparatus.                                |

### 6. Accidental release measures

#### Personal Precautions, Protective Equipment and Emergency Procedures

| ,                                 |  |
|-----------------------------------|--|
| General measures                  | : Before entering, ventilate the area.   |
|                                   | Do not let unauthorized persons come close to the area.  |
|                                   | Immediately place the leakage area in isolation, with taking proper distances for all directions.  |
|                                   | Wear appropriate personal protective devices to prevent inhalation and contact with eye, skin, and clothing, and never attempt to work on the lee. |
| Environmental precautions         |  |
| Environmental precautions         | : Avoid release to the environment.  |
|                                   | Prevent entry to sewers and public waters.   |
| Methods and Equipment for Contain | nment and Cleaning up  |
| Methods for cleaning up           | : Clean up any spills as soon as possible, using an absorbent material to collect it.  |
|                                   | Collect leaking and spilled liquid in sealable containers as far as possible.  |
|                                   | Wash out the spilled area with large amounts of water.   |
|                                   |  |
|                                   |  |

## 7. Handling and storage

| Handling           |  |      |
|--------------------|--|------|
| Technical measures | : Work with appropriate personal protective equipment to prevent inhala<br>or contact to eyes, skin, and clothing.             | tion |
|                    | Handle with care to prevent leakage, overflowing, or scattering, minimi generation of mist or vapor, and thoroughly ventilate. | ze   |

| Precautions for safe handling<br>Prevents handling of incompatible<br>substances or mixtures | : | Do not eat, drink or smoke when using this product.<br>Thoroughly wash your hands and gargle after handling.<br>Ensure good ventilation of the work station.<br>Do not contact, breathe or swallow.<br>Avoid prolonged or repeated exposure. |
|--|---|--|
| Storage  |   |  |
| Storage conditions   | : | Store locked up.<br>Store in a well-ventilated place, away from direct sunlight. Keep container<br>tightly closed and keep away from fire and heat sources.  |
|  |   | Store in corrosive resistant container with a resistant inner liner.   |
| Material used in<br>packaging/containers   | : | Airtight container.<br>Storage prohibition in glass or porcelain container.  |
| Technical measures   | : | Comply with applicable regulations.  |
| Storage temperature  | : | Cool and dark place  |
|  |   |  |

## 8. Exposure controls / Personal protection equipment

| Exposure limit values                      |  |
|--|--|
| Sodium hydroxide                           |  |
| Exposure limits (JSOH)                     | [Ceiling]2mg/m3  |
| Exposure limits (ACGIH)                    | TWA -,STEL C 2 mg/m3   |
| Appropriate engineering controls           | : Cover up tightly the generation source at the handling place or install local exhaust equipment or overall ventilation equipment. Install safety showers and eye-fountains near a handling place. Clearly indicate the location. |
| Protective equipment                       |  |
| Respiratory protection                     | : Gas mask   |
| Hand protection                            | : Impervious protective gloves   |
| Eye protection<br>Skin and body protection | : Protective glasses (general glasses, glasses with side-shields, goggles)<br>: Impervious aprons, Impervious work clothing, Impervious long boots   |

## 9. Physical and chemical properties

| Physical state                                      | : | Liquid                |
|---|---|-----------------------|
| Appearance  | : | Liquid                |
| Color   | : | colorless transparent |
| Odor  | : | Odorless              |
| рН  | : | ≥ 13 (25°C)           |
| Melting point                                       | : | No data available     |
| Freezing point                                      | : | No data available     |
| Boiling point                                       | : | No data available     |
| Flash point   | : | No data available     |
| Auto-ignition temperature                           | : | No data available     |
| Decomposition temperature                           | : | No data available     |
| Flammability (solid, gas)                           | : | No data available     |
| Vapor pressure                                      | : | No data available     |
| Relative density                                    | : | No data available     |
| Density   | : | 1.28 g/cm³ (20°C)     |
| Relative gas density                                | : | No data available     |
| Solubility  | : | No data available     |
| Partition coefficient n-<br>octanol/water (Log Pow) | : | No data available     |
| Explosive limits (vol %)                            | : | No data available     |
| Viscosity, kinematic                                | : | No data available     |
| Particle characteristics                            | : | No data available     |

# 10. Stability and reactivity

| Reactivity                          | : | No data available  |
|-------------------------------------|---|--|
| Chemical stability                  | : | Stable under normal handling conditions. Absorbs carbon dioxide in air.  |
| Possibility of hazardous reactions  | : | Be a strong base, reacts with acids to generate heat. Corrodes metals such<br>as zinc, aluminium, tin and lead to evolve flammable/explosive gas<br>(hydrogen). Reacts with phosphides to evolve toxic and flammable gas<br>(hydrogen phosphide). Reacts with ammonium salts to produce ammonia,<br>posing a risk of fire. Corrodes some kinds of plastics, rubbers and coating<br>agents. |
| Conditions to avoid                 | : | Sunlight, heat. Contact with strong acids, strong oxidizing agents, ammonium salts, phosphides and metals.   |
| Incompatible materials              | : | Strong acids, Strong oxidizing agents, Ammonium salt, Phosphides, Metals   |
| Hazardous decomposition<br>products | : | Sodium oxides, Hydrogen  |

# 11. Toxicological information

The information in this section is based on the "GHS Classification Results" by NITE.

| As a product                                    |  |  |  |  |
|---|--|--|--|--|

| STOT-repeated exposure | No classification |  |  |
| Aspiration hazard      | No classification |  |  |

## 12. Ecological information

The information in this section is based on the "GHS Classification Results" by NITE.

| As a product  |                             |  |
|---|-----------------------------|--|
| Hazardous to the aquatic environment, short-term (acute)  | Category 3                  |  |
| Hazardous to the aquatic environment, long-term (chronic) | No classification           |  |
| Persistence and degradability                             | No data available           |  |
| Bioaccumulative potential                                 | No data available           |  |
| Mobility in soil  | No data available           |  |
| Ozone   | classification not possible |  |
| Sodium hydroxide  |                             |  |
| Hazardous to Aquatic Environment -<br>Acute Hazard        | Category 3                  |  |
| Hazardous to Aquatic Environment -<br>Chronic Hazard      | No classification           |  |
| Persistence and degradability                             | No data available           |  |
| Bioaccumulative potential                                 | No data available           |  |
| Mobility in soil  | No data available           |  |
| Hazardous to the ozone layer                              | classification not possible |  |
| Water   |                             |  |
| Hazardous to Aquatic Environment -<br>Acute Hazard        | No classification           |  |
| Hazardous to Aquatic Environment -<br>Chronic Hazard      | No classification           |  |
| Persistence and degradability                             | No data available           |  |
| Bioaccumulative potential                                 | No data available           |  |
| Mobility in soil  | No data available           |  |
| Hazardous to the ozone layer                              | classification not possible |  |

## 13. Disposal considerations

| Ecology - waste materials            | : | With the detail information of the waste, subcontract its disposal to a waste disposer authorized by a Prefectural Governor.                              |
|--------------------------------------|---|---|
| Contaminated container and packaging | : | Empty the packaging completely prior to disposal.<br>Empty containers should be taken for recycle, recovery or waste in accordance with local regulation. |

#### 14. Transport information

#### **International Regulations**

#### Transport by sea(IMDG)

| UN-No. (IMDG)                     | : | 1824                      |
|-----------------------------------|---|---------------------------|
| Proper Shipping Name (IMDG)       | : | SODIUM HYDROXIDE SOLUTION |
| Packing group (IMDG)              | : | 11                        |
| Transport hazard class(es) (IMDG) | : | 8                         |
| Hazard labels (IMDG)              | : | 8                         |
| Class (IMDG)                      | : | 8                         |
| Limited quantities (IMDG)         | : | 1 L                       |
| Excepted quantities (IMDG)        | : | E2                        |
| Packing instructions (IMDG)       | : | P001                      |
|                                   |   |                           |
