

Hayashi Pure Chemical Ind.,Ltd.

Date of issue: 10/3/2023

SDS code: S8-17

Version: 01

# Safety Data Sheet

## 1. Chemical product and company identification

| Product name<br>SDS code  | -                  | Fenoxasulfone<br>S8-17   |
|---|--------------------|--|
| Company/undertaking<br>identification<br>HAYASHI PURE CHEMIC/<br>Address : 3-2-12 Uchihira<br>Telephone : 06-6910-730<br>E-mail : shiyaku_kikaku@<br>URL : https://www.hpc-j.cr | noma<br>5<br>hpc-j | achi, Chuo-ku, Osaka, Osaka, Japan   |
| Emergency number  | :                  | 06-6910-7305   |
| Recommended use   | :                  | For research and experimental use only.  |
| Restrictions on use   | :                  | Do not use for any purpose other than research and experiment. Do not use on a human body or for animal medicines, foods, household products, cosmetics, etc. Do not use in the environment. |

## 2. Hazards identification

### **GHS** classification

| GIIS classification |  |                             |
|---------------------|--|-----------------------------|
| Physical hazards    | Explosives   | classification not possible |
|                     | Flammable gases  | No classification           |
|                     | Aerosol  | classification not possible |
|                     | Oxidizing gases  | No classification           |
|                     | Gases under pressure   | No classification           |
|                     | Flammable liquids  | No classification           |
|                     | Flammable solids   | classification not possible |
|                     | Self-reactive substances and<br>mixtures                                 | classification not possible |
|                     | Pyrophoric liquids   | No classification           |
|                     | Pyrophoric solids  | classification not possible |
|                     | Self-heating substances and<br>mixtures                                  | classification not possible |
|                     | Substances and mixtures which in contact with water emit flammable gases | classification not possible |
|                     | Oxidizing liquids  | No classification           |
|                     | Oxidizing solids   | classification not possible |
|                     | Organic peroxides  | classification not possible |
|                     | Corrosive to metals  | classification not possible |
|                     | Desensitized explosives  | classification not possible |
| Health hazards      | Acute toxicity (oral)  | classification not possible |
|                     | Acute toxicity (dermal)  | classification not possible |
|                     | Acute toxicity (inhalation:gas)  | classification not possible |
|                     | Acute toxicity (inhalation:vapors)                                       | classification not possible |
|                     | Acute toxicity (inhalation:dust/mist)                                    | classification not possible |
|                     | Skin corrosion/irritation  | classification not possible |
|                     | Serious eye damage/eye irritation  | Category 2B                 |
|                     | Respiratory sensitization  | classification not possible |
|                     | Skin sensitization   | Category 1                  |
|                     | Germ cell mutagenicity   | classification not possible |
|                     | Carcinogenicity  | classification not possible |
|                     | Reproductive toxicity  | classification not possible |
|                     | Specific target organ toxicity (single exposure)                         | classification not possible |

| Environmental<br>hazards         | Specific target organ toxicity<br>(repeated exposure)<br>Aspiration hazard<br>Hazardous to the aquatic<br>environment, short-term (acute)<br>Hazardous to the aquatic<br>environment, long-term (chronic)<br>Hazardous to the ozone layer |  | Category 2 (nervous system, kidneys)<br>classification not possible<br>Category 1<br>Category 1<br>classification not possible  |

(P362+P364)                                 |
| Disposal                         | :   | Dispose of conte   | nts/container to hazardous or special waste collection nce with local, regional, national and/or international  |

### 3. Composition/information on ingredients

Distinction of substance or mixture : Substance

| Name          | Concentration or    | Formula       | Kanpo   | CAS RN     |             |  |
|---------------|---------------------|---------------|---------|------------|-------------|--|
| Nume          | Concentration range | 1 ornidia     | CSCL no | ISHL no    | OAD INI     |  |
| Fenoxasulfone | ≧95%、≦100%          | C14H17Cl2NO4S | -       | 8-(7)-1525 | 639826-16-7 |  |

The above concentration or concentration range are not product specification.

All percentages listed in the above concentration or concentration range are wt%, unless otherwise specified.

#### 4. First aid measures

#### First aid measures

| First-aid measures after inhalation   | : | Remove person to fresh air and keep comfortable for breathing.<br>Get immediate medical advice/attention.                        |
|---------------------------------------|---|--|
| First-aid measures after skin contact | : | Remove/Take off immediately all contaminated clothing.<br>Gently wash with plenty of soap and water.                             |
|                                       |   | Get immediate medical advice/attention.  |
| First-aid measures after eye contact  | : | IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. |
|                                       |   | Get immediate medical advice/attention.  |

| First-aid measures after ingestion                  | : | Rinse mouth.<br>Get immediate medical advice/attention.  |
|---|---|--|
| 5. Fire fighting measures                           |   |  |
| Suitable extinguishing media                        | : | Water spray, Foam, Dry powder, Carbon dioxide, Sand.   |
| Unsuitable extinguishing media                      | : | Do not use a heavy water stream.   |
| Explosion hazard                                    | : | May induce explosion of containers by heating.   |
| Hazardous decomposition products<br>in case of fire | ÷ | In case of fire, product may produce irritative or toxic fumes/gases.  |
| Firefighting instructions                           | : | If ignited, for the initial fire-fighting, cut off combustion sources, extinguish fire at a stroke using appropriate fire-extinguishers. |
|   |   | In the case of peripheral fire, quickly remove movable containers to safe places.  |
|   |   | If unable to be moved containers, sprinkle water to containers and surrounding equipment, etc. to cool.                                  |
|   |   | Avoid (reject) fire-fighting water to enter environment.   |
|   |   | Even after extinguishing fire, thoroughly cool containers by using plenty of water.  |
| Protection during firefighting                      | : | Wear appropriate fire-resistant clothing including self contained-<br>compressed air breathing apparatus.                                |

### 6. Accidental release measures

| 6. Accidental release meas                                  | su  | res  |
|---|-----|--|
| Personal Precautions, Protective E                          | qu  | ipment and Emergency Procedures  |
| General measures  | :   | Before entering, ventilate the area.   |
|   |     | Do not let unauthorized persons come close to the area.  |
|   |     | Immediately place the leakage area in isolation, with taking proper distances for all directions.  |
|   |     | Wear appropriate personal protective devices to prevent inhalation and contact with eye, skin, and clothing, and never attempt to work on the lee. |
| Environmental precautions                                   |     |  |
| Environmental precautions                                   | :   | Avoid release to the environment.  |
|   |     | Prevent entry to sewers and public waters.   |
| Methods and Equipment for Contai                            | inm | ent and Cleaning up  |
| Methods for cleaning up                                     | :   | Take care not to generate dust, sweep it up as much as possible, collect it in an empty container that can be sealed, and move it to a safe place. |
|   |     | Wash out the spilled area with large amounts of water.   |
|   |     |  |
| 7. Handling and storage                                     |     |  |
| Handling  |     |  |
| Technical measures  | :   | Work with appropriate personal protective equipment to prevent inhalation or contact to eyes, skin, and clothing.                                  |
|   |     | Handle with care to prevent leakage, overflowing, or scattering, minimize generation of mist or vapor, and thoroughly ventilate.                   |
| Precautions for safe handling                               | :   | Do not eat, drink or smoke when using this product.  |
|   |     | Thoroughly wash your hands and gargle after handling.  |
|   |     | Ensure good ventilation of the work station.   |
|   |     | Do not contact, breathe or swallow.  |
| Prevents handling of incompatible<br>substances or mixtures | :   | Avoid prolonged or repeated exposure.  |
| Storage   |     |  |
| Storage conditions  | :   | Store locked up.   |
| J   |     | Store in a well-ventilated place, away from direct sunlight. Keep container tightly closed and keep away from fire and heat sources.               |
| Material used in<br>packaging/containers                    | :   | Light shielding airtight container.  |
| Technical measures  | :   | Comply with applicable regulations.  |
| Storage temperature   | :   | Refrigerate: 2-10℃   |
|   |     |  |

# 8. Exposure controls / Personal protection equipment

| Appropriate engineering controls | : Cover up tightly the generation source at the handling place or install local exhaust equipment or overall ventilation equipment. Install safety showers and eye-fountains near a handling place. Clearly indicate the location. |
|----------------------------------|--|
| Protective equipment             |  |
| Respiratory protection           | : Dustproof mask   |
| Hand protection                  | : Protective gloves  |
| Eye protection                   | : Protective glasses (general glasses, glasses with side-shields, goggles)   |
| Skin and body protection         | : Protective clothing, Protective boots, Protective apron  |

# 9. Physical and chemical properties

| Physical state                                      | : | Solid   |
|---|---|---|
| Appearance  | : | Crystals  |
| Color   | : | white   |
| Odor  | : | Odorless  |
| рН  | : | No data available   |
| Melting point                                       | : | No data available   |
| Freezing point                                      | : | No data available   |
| Boiling point                                       | : | No data available   |
| Flash point   | : | No data available   |
| Auto-ignition temperature                           | : | No data available   |
| Decomposition temperature                           | : | No data available   |
| Flammability (solid, gas)                           | : | No data available   |
| Vapor pressure                                      | : | No data available   |
| Relative density                                    | : | No data available   |
| Density   | : | 1.37  |
| Relative gas density                                | : | No data available   |
| Solubility  | : | Soluble in toluene. Soluble in dichloromethane. Soluble in methanol.<br>Soluble in acetone. Soluble in ethyl acetate. Slightly soluble in n-hexane.<br>Water: 0.17 mg/l |
| Partition coefficient n-<br>octanol/water (Log Pow) | : | No data available   |
| Explosive limits (vol %)                            | : | No data available   |
| Viscosity, kinematic                                | : | No data available   |
| Particle characteristics                            | : | No data available   |
|   |   |   |

## 10. Stability and reactivity

| Reactivity                          | : | No data available   |
|-------------------------------------|---|---|
| Chemical stability                  | : | Stable under normal handling conditions.                      |
| Possibility of hazardous reactions  | : | May react with strong acids and strong alkalis.               |
| Conditions to avoid                 | : | Sunlight, heat. Contact with strong acids and strong alkalis. |
| Incompatible materials              | : | Strong acids, Strong alkalis                                  |
| Hazardous decomposition<br>products | : | Nitrogen oxides, Sulfur oxides, Chlorine and its compounds    |

## **11. Toxicological information**

| Fenoxasulfone                         |                             |
|---------------------------------------|-----------------------------|
| Acute toxicity (oral)                 | classification not possible |
| Acute toxicity (dermal)               | classification not possible |
| Acute toxicity (gas)                  | classification not possible |
| Acute toxicity (vapour)               | classification not possible |
| Acute toxicity (inhalation:dust/mist) | classification not possible |
| Skin corrosion/irritation             | classification not possible |
| Serious eye damage/irritation         | Category 2B                 |
| Respiratory sensitization             | classification not possible |
| Skin sensitization                    | Category 1                  |

| Fenoxasulfone          |                             |
|------------------------|-----------------------------|
| Germ cell mutagenicity | classification not possible |
| Carcinogenicity        | classification not possible |
| Reproductive toxicity  | classification not possible |
| STOT-single exposure   | classification not possible |
| STOT-repeated exposure | Category 2                  |
| Aspiration hazard      | classification not possible |

## 12. Ecological information

| Fenoxasulfone  |                             |  |
|--|-----------------------------|--|
| Hazardous to Aquatic Environment -<br>Acute Hazard   | Category 1                  |  |
| Hazardous to Aquatic Environment -<br>Chronic Hazard | Category 1                  |  |
| Persistence and degradability                        | No data available           |  |
| Bioaccumulative potential                            | No data available           |  |
| Mobility in soil                                     | No data available           |  |
| Hazardous to the ozone layer                         | classification not possible |  |

# 13. Disposal considerations

| Ecology - waste materials               | : | With the detail information of the waste, subcontract its disposal to a waste disposer authorized by a Prefectural Governor.                              |
|---|---|---|
| Contaminated container and<br>packaging | : | Empty the packaging completely prior to disposal.<br>Empty containers should be taken for recycle, recovery or waste in accordance with local regulation. |

### 14. Transport information
