

# 6mol/L(6N) Potassium hydroxide solution

Hayashi Pure Chemical Ind.,Ltd.

Date of issue: 6/29/2022 Revision date: 3/31/2023 SDS code: VB-12

de: VB-12 Version: 02

## Safety Data Sheet

#### 1. Chemical product and company identification

| Product name  | :           | 6mol/L(6N) Potassium hydroxide solution  |
|---|-------------|--|
| SDS code  | :           | VB-12  |
| Company/undertaking<br>identification<br>HAYASHI PURE CHEMICAL<br>Address : 3-2-12 Uchihirand<br>Telephone : 06-6910-7305<br>E-mail : shiyaku_kikaku@h<br>URL : https://www.hpc-j.co. | oma<br>pc-j | nchi, Chuo-ku, Osaka, Osaka, Japan   |
| Emergency number  | :           | 06-6910-7305   |
| Recommended use   | :           | For research and experimental use only.  |
| Restrictions on use   | :           | Do not use on a human body or for animal medicines, foods, household products, cosmetics, etc. |

## 2. Hazards identification

#### **GHS** classification

| Physical hazards | Explosives   | classification not possible     |
|------------------|--|---------------------------------|
|                  | Flammable gases  | No classification               |
|                  | Aerosol  | classification not possible     |
|                  | Oxidizing gases  | No classification               |
|                  | Gases under pressure   | No classification               |
|                  | Flammable liquids  | classification not possible     |
|                  | Flammable solids   | No classification               |
|                  | Self-reactive substances and mixtures                                    | classification not possible     |
|                  | Pyrophoric liquids   | classification not possible     |
|                  | Pyrophoric solids  | No classification               |
|                  | Self-heating substances and<br>mixtures                                  | classification not possible     |
|                  | Substances and mixtures which in contact with water emit flammable gases | classification not possible     |
|                  | Oxidizing liquids  | classification not possible     |
|                  | Oxidizing solids   | No classification               |
|                  | Organic peroxides  | classification not possible     |
|                  | Corrosive to metals  | Category 1                      |
|                  | Desensitized explosives  | classification not possible     |
| Health hazards   | Acute toxicity (oral)  | Category 4                      |
|                  | Acute toxicity (dermal)  | classification not possible     |
|                  | Acute toxicity (inhalation:gas)  | No classification               |
|                  | Acute toxicity (inhalation:vapors)                                       | No classification               |
|                  | Acute toxicity (inhalation:dust/mist)                                    | classification not possible     |
|                  | Skin corrosion/irritation  | Category 1                      |
|                  | Serious eye damage/eye irritation  | Category 1                      |
|                  | Respiratory sensitization  | classification not possible     |
|                  | Skin sensitization   | classification not possible     |
|                  | Germ cell mutagenicity   | classification not possible     |
|                  | Carcinogenicity  | classification not possible     |
|                  | Reproductive toxicity  | classification not possible     |
|                  | Specific target organ toxicity (single exposure)                         | Category 1 (respiratory system) |

|                                  | Specific target org<br>(repeated exposu |  | Category 1 (respiratory system)  |
|----------------------------------|---|--|--|
|                                  | Aspiration hazard                       |  | Category 1   |
| Environmental<br>hazards         | Hazardous to the environment, sho       |  | classification not possible  |
|                                  | Hazardous to the environment, long      |  | classification not possible  |
|                                  | Hazardous to the                        |  | classification not possible  |
| Hazard<br>pictograms<br>(GHS JP) |   | !> <   |  |

| Storage                          | :                                       | Store locked up. (   | (P405)   |
| Disposal                         | :                                       | Dispose of conter  | resistant container with a resistant inner liner. (P406)<br>hts/container to hazardous or special waste collection<br>hce with local, regional, national and/or international<br>)   |

### 3. Composition/information on ingredients

Distinction of substance or mixture : Mixture

| Name                | Concentration or    | Formula  | Kanpo   | CAS RN                            |           |  |
|---------------------|---------------------|----------|---------|-----------------------------------|-----------|--|
| INGING              | Concentration range | Tornidia | CSCL no | ISHL no                           |           |  |
| Potassium hydroxide | About 26.9%         | КОН      | (1)-369 | Existing<br>Chemical<br>Substance | 1310-58-3 |  |
| Water               | About 73.1%         | H2O      | -       | -                                 | 7732-18-5 |  |

The above concentration or concentration range are not product specification.

All percentages listed in the above concentration or concentration range are wt%, unless otherwise specified.

#### 4. First aid measures

| First-aid measures after inhalation     | : | Remove person to fresh air and keep comfortable for breathing.<br>Get immediate medical advice/attention.                        |
|---|---|--|
| First-aid measures after skin           | : | Remove/Take off immediately all contaminated clothing.   |
| contact                                 |   | Gently wash with plenty of soap and water.   |
|   |   | Get immediate medical advice/attention.  |
| First-aid measures after eye<br>contact |   | IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. |
|   |   | Get immediate medical advice/attention.  |
| First-aid measures after ingestion      | : | Do NOT induce vomiting.  |
|   |   | Drink plenty of water.   |
|   |   | Rinse mouth.   |
|   |   | Get immediate medical advice/attention.  |

## 5. Fire fighting measures

| Suitable extinguishing media                        | : | Water spray, Alcohol-resistant foam, Dry powder, Carbon dioxide, Sand.   |
|---|---|--|
| Unsuitable extinguishing media                      | : | Do not use a heavy water stream.   |
| Fire hazard   | : | This product is unburnable.  |
| Explosion hazard                                    | : | May induce explosion of containers by heating.   |
| Hazardous decomposition products<br>in case of fire | : | In case of fire, product may produce irritative or toxic fumes/gases.  |
| Firefighting instructions                           | : | If ignited, for the initial fire-fighting, cut off combustion sources, extinguish fire at a stroke using appropriate fire-extinguishers. |
|   |   | In the case of peripheral fire, quickly remove movable containers to safe places.  |
|   |   | If unable to be moved containers, sprinkle water to containers and surrounding equipment, etc. to cool.                                  |
|   |   | Avoid (reject) fire-fighting water to enter environment.   |
|   |   | Even after extinguishing fire, thoroughly cool containers by using plenty of water.  |
| Protection during firefighting                      | : | Wear appropriate fire-resistant clothing including self contained-<br>compressed air breathing apparatus.                                |

#### 6. Accidental release measures

#### Personal Precautions, Protective Equipment and Emergency Procedures

| •                                  |  |  |  |
|------------------------------------|--|--|--|
| General measures :                 | Before entering, ventilate the area.   |  |  |
|                                    | Do not let unauthorized persons come close to the area.  |  |  |
|                                    | Immediately place the leakage area in isolation, with taking proper distances for all directions.  |  |  |
|                                    | Wear appropriate personal protective devices to prevent inhalation and contact with eye, skin, and clothing, and never attempt to work on the lee. |  |  |
| Environmental precautions          |  |  |  |
| Environmental precautions :        | Avoid release to the environment.  |  |  |
|                                    | Prevent entry to sewers and public waters.   |  |  |
| Methods and Equipment for Containr | nent and Cleaning up   |  |  |
| Methods for cleaning up :          | Clean up any spills as soon as possible, using an absorbent material to collect it.  |  |  |
|                                    | Collect leaking and spilled liquid in sealable containers as far as possible.  |  |  |
|                                    | Wash out the spilled area with large amounts of water.   |  |  |
|                                    |  |  |  |
| 7 Handling and storage             |  |  |  |

#### 7. Handling and storage

| Handling           |   |  |
|--------------------|---|--|
| Technical measures | : | Work with appropriate personal protective equipment to prevent inhalation or contact to eyes, skin, and clothing.                |
|                    |   | Handle with care to prevent leakage, overflowing, or scattering, minimize generation of mist or vapor, and thoroughly ventilate. |

| Precautions for safe handling                            | : | Do not eat, drink or smoke when using this product.<br>Thoroughly wash your hands and gargle after handling.<br>Ensure good ventilation of the work station.<br>Do not contact, breathe or swallow. |
|--|---|---|
| Prevents handling of incompatible substances or mixtures | : | Avoid prolonged or repeated exposure.   |
| Storage  |   |   |
| Storage conditions                                       | : | Store locked up.  |
|  |   | Store in a well-ventilated place, away from direct sunlight. Keep container tightly closed and keep away from fire and heat sources.  |
|  |   | Store in corrosive resistant container with a resistant inner liner.  |
| Material used in   | : | Airtight container.   |
| packaging/containers                                     |   | Storage prohibition in glass or porcelain container.  |
| Technical measures                                       | : | Comply with applicable regulations.   |
| Storage temperature                                      | : | Cool and dark place   |
|  |   |   |

## 8. Exposure controls / Personal protection equipment

| Exposure limit values            |  |
|----------------------------------|--|
| Potassium hydroxide              |  |
| Exposure limits (JSOH)           | [Ceiling]2mg/m3  |
| Exposure limits (ACGIH)          | TWA -,STEL C 2 mg/m3   |
| Appropriate engineering controls | : Cover up tightly the generation source at the handling place or install local<br>exhaust equipment or overall ventilation equipment. Install safety showers<br>and eye-fountains near a handling place. Clearly indicate the location. |
| Protective equipment             |  |
| Respiratory protection           | : Gas mask   |
| Hand protection                  | : Impervious protective gloves   |
| Eye protection                   | : Protective glasses (general glasses, glasses with side-shields, goggles)   |
| Skin and body protection         | : Impervious aprons, Impervious work clothing, Impervious long boots   |

## 9. Physical and chemical properties

| Physical state                                      | : | Liquid                |
|---|---|-----------------------|
| Appearance  | : | Liquid                |
| Color   | : | colorless transparent |
| Odor  | : | Odorless              |
| рН  | : | ≥ 13 (25°C)           |
| Melting point                                       | : | No data available     |
| Freezing point                                      | : | No data available     |
| Boiling point                                       | : | No data available     |
| Flash point   | : | No data available     |
| Auto-ignition temperature                           | : | No data available     |
| Decomposition temperature                           | : | No data available     |
| Flammability (solid, gas)                           | : | No data available     |
| Vapor pressure                                      | : | No data available     |
| Relative density                                    | : | No data available     |
| Density   | : | 1.26 g/cm³ (20°C)     |
| Relative gas density                                | : | No data available     |
| Solubility  | : | No data available     |
| Partition coefficient n-<br>octanol/water (Log Pow) | : | No data available     |
| Explosive limits (vol %)                            | : | No data available     |
| Viscosity, kinematic                                | : | No data available     |
| Particle characteristics                            | : | No data available     |

## 10. Stability and reactivity

| Reactivity                          | : | No data available   |
|-------------------------------------|---|---|
| Chemical stability                  | : | Stable under normal handling conditions. Absorbs carbon dioxide in air.   |
| Possibility of hazardous reactions  | : | It is strongly basis and violently reacts with acids to generate heat. Produces<br>ammonia by reacting to ammonium salts and may cause the fire hazard.<br>Erodes some kinds of plastics, rubbers and coating agents. Exhibits<br>corrosion against metals including zinc, aluminium, tin and lead, and evolve<br>flammable/explosive gas (hydrogen). |
| Conditions to avoid                 | : | Sunlight, heat. Contact with strong acids, strong oxidizing agents, ammonium salts and metals.  |
| Incompatible materials              | : | Strong acids, Strong oxidizing agents, Ammonium salts, Metals   |
| Hazardous decomposition<br>products | : | Potassium oxides, Hydrogen  |

## **11. Toxicological information**

The information in this section is based on the "GHS Classification Results" by NITE.

| The information in this section is based on the "GHS Classification Results" by NITE. |  |  |  |

| STOT-repeated exposure | No classification |  |
| Aspiration hazard      | No classification |  |

### 12. Ecological information

The information in this section is based on the "GHS Classification Results" by NITE.

| As a product  |                             |  |  |
|---|-----------------------------|--|--|
| Hazardous to the aquatic environment, short-term (acute)  | classification not possible |  |  |
| Hazardous to the aquatic environment, long-term (chronic) | classification not possible |  |  |
| Persistence and degradability                             | No data available           |  |  |
| Bioaccumulative potential                                 | No data available           |  |  |
| Mobility in soil  | No data available           |  |  |
| Ozone   | classification not possible |  |  |
| Potassium hydroxide                                       |                             |  |  |
| Hazardous to Aquatic Environment -<br>Acute Hazard        | classification not possible |  |  |
| Hazardous to Aquatic Environment -<br>Chronic Hazard      | classification not possible |  |  |
| Persistence and degradability                             | No data available           |  |  |
| Bioaccumulative potential                                 | No data available           |  |  |
| Mobility in soil  | No data available           |  |  |
| Hazardous to the ozone layer                              | classification not possible |  |  |
| Water   |                             |  |  |
| Hazardous to Aquatic Environment -<br>Acute Hazard        | No classification           |  |  |
| Hazardous to Aquatic Environment -<br>Chronic Hazard      | No classification           |  |  |
| Persistence and degradability                             | No data available           |  |  |
| Bioaccumulative potential                                 | No data available           |  |  |
| Mobility in soil  | No data available           |  |  |
| Hazardous to the ozone layer                              | classification not possible |  |  |

#### 13. Disposal considerations

| Ecology - waste materials            | : | With the detail information of the waste, subcontract its disposal to a waste disposer authorized by a Prefectural Governor.                              |
|--------------------------------------|---|---|
| Contaminated container and packaging | : | Empty the packaging completely prior to disposal.<br>Empty containers should be taken for recycle, recovery or waste in accordance with local regulation. |

### 14. Transport information
