

# Chromate standard solution 1mg CrO<sub>4</sub>/mL (1000ppm)

Hayashi Pure Chemical Ind.,Ltd.

Date of issue: 3/14/2017 Revision date: 7/18/2023 SDS code: W3-15 Version: 04

## Safety Data Sheet

## 1. Chemical product and company identification

**Product name** Chromate standard solution 1mg CrO<sub>4</sub>/mL (1000ppm)

SDS code W3-15

Company/undertaking

identification

HAYASHI PURE CHEMICAL IND.,LTD.

Address: 3-2-12 Uchihiranomachi, Chuo-ku, Osaka, Osaka, Japan

Telephone: 06-6910-7305

E-mail: shiyaku\_kikaku@hpc-j.co.jp URL: https://www.hpc-j.co.jp/

06-6910-7305 **Emergency number** 

Recommended use For research and experimental use only.

Restrictions on use Do not use on a human body or for animal medicines, foods, household

products, cosmetics, etc.

## 2. Hazards identification

#### **GHS** classification

Health hazards

Physical hazards **Explosives** classification not possible

> Flammable gases No classification

Aerosol classification not possible

Oxidizing gases No classification Gases under pressure No classification

Flammable liquids classification not possible

Flammable solids No classification

Self-reactive substances and

mixtures

Pyrophoric liquids

classification not possible classification not possible

Pyrophoric solids No classification

Self-heating substances and

mixtures

classification not possible

Substances and mixtures which in contact with water emit flammable

gases

classification not possible

Oxidizing liquids classification not possible

No classification Oxidizing solids

Organic peroxides classification not possible Corrosive to metals classification not possible Desensitized explosives classification not possible Acute toxicity (oral) classification not possible Acute toxicity (dermal) classification not possible

Acute toxicity (inhalation:gas) No classification

Acute toxicity (inhalation:vapors) classification not possible Acute toxicity (inhalation:dust/mist) classification not possible

Skin corrosion/irritation No classification Serious eye damage/eye irritation No classification

Respiratory sensitization classification not possible

Skin sensitization No classification Germ cell mutagenicity Category 1B Carcinogenicity Category 1A

Reproductive toxicity classification not possible

Specific target organ toxicity (single

exposure)

No classification

Revision date: 7/18/2023 SDS code: W3-15 Version: 04

Specific target organ toxicity

(repeated exposure)

Aspiration hazard

Environmental hazards

Hazardous to the aquatic environment, short-term (acute)

Hazardous to the aquatic

environment, long-term (chronic)

Hazardous to the ozone layer

No classification

No classification

classification not possible

Hazard pictograms (GHS JP)

Signal word (GHS JP) : Danger

Hazard statements (GHS JP) : May cause genetic defects (H340)

May cause cancer (H350)

Precautionary statements (GHS JP)

Prevention : Obtain special instructions before use. (P201)

Do not handle until all safety precautions have been read and understood.

(P202)

Wear protective gloves/protective clothing/eye protection/face protection.

(P280)

Response : IF exposed or concerned: Get medical advice/attention. (P308+P313)

Storage : Store locked up. (P405)

Disposal : Dispose of contents/container to hazardous or special waste collection

point, in accordance with local, regional, national and/or international

regulation. (P501)

# 3. Composition/information on ingredients

Distinction of substance or mixture : Mixture

| Name               | Concentration or Concentration range | Formula | Kanpo number |                                   | CAS RN    |
|--------------------|--------------------------------------|---------|--------------|-----------------------------------|-----------|
|                    |                                      |         | CSCL no      | ISHL no                           | CASKI     |
| Potassium chromate | About 0.17%                          | K2CrO4  | (1)-661      | Existing<br>Chemical<br>Substance | 7789-00-6 |
| Sodium hydroxide   | About 0.001%                         | NaOH    | (1)-410      | Existing<br>Chemical<br>Substance | 1310-73-2 |
| Water              | About 99.829%                        | H2O     | -            | -                                 | 7732-18-5 |

The above concentration or concentration range are not product specification.

All percentages listed in the above concentration or concentration range are wt%, unless otherwise specified.

#### 4. First aid measures

### First aid measures

First-aid measures after inhalation : Remove person to fresh air and keep comfortable for breathing.

Rinse mouth.

Get immediate medical advice/attention.

First-aid measures after skin

contact

: Remove/Take off immediately all contaminated clothing.

Gently wash with plenty of soap and water.

Get immediate medical advice/attention.

First-aid measures after eye

contact

IF IN EYES: Rinse cautiously with water for several minutes. Remove

contact lenses, if present and easy to do. Continue rinsing.

Get immediate medical advice/attention.

First-aid measures after ingestion

Get immediate medical advice/attention.

Revision date: 7/18/2023 SDS code: W3-15 Version: 04

## 5. Fire fighting measures

Suitable extinguishing media

Use proper extinguishing media depending on peripheral fire.

Unsuitable extinguishing media

: Do not use a heavy water stream.

Hazardous decomposition products in case of fire

In case of fire, product may produce irritative or toxic fumes/gases.

Firefighting instructions

If ignited, for the initial fire-fighting, cut off combustion sources, extinguish

fire at a stroke using appropriate fire-extinguishers.

In the case of peripheral fire, quickly remove movable containers to safe

places

If unable to be moved containers, sprinkle water to containers and

surrounding equipment, etc. to cool.

Protection during firefighting : Wear appropriate fire-resistant clothing including self contained-

compressed air breathing apparatus.

#### 6. Accidental release measures

## Personal Precautions, Protective Equipment and Emergency Procedures

General measures : Before entering, ventilate the area.

Do not let unauthorized persons come close to the area.

Immediately place the leakage area in isolation, with taking proper

distances for all directions.

Wear appropriate personal protective devices to prevent inhalation and contact with eye, skin, and clothing, and never attempt to work on the lee.

**Environmental precautions** 

Environmental precautions : Avoid release to the environment.

Prevent entry to sewers and public waters.

#### Methods and Equipment for Containment and Cleaning up

Methods for cleaning up : Clean up any spills as soon as possible, using an absorbent material to

collect it.

Collect leaking and spilled liquid in sealable containers as far as possible.

Wash out the spilled area with large amounts of water.

## 7. Handling and storage

#### Handling

Technical measures : Work with appropriate personal protective equipment to prevent inhalation

or contact to eyes, skin, and clothing.

Handle with care to prevent leakage, overflowing, or scattering, minimize

generation of mist or vapor, and thoroughly ventilate.

Precautions for safe handling : Do not eat, drink or smoke when using this product.

Thoroughly wash your hands and gargle after handling.

Ensure good ventilation of the work station.

Do not contact, breathe or swallow.

Prevents handling of incompatible

substances or mixtures

Avoid prolonged or repeated exposure.

#### Storage

Storage conditions : Store locked up.

Store in a well-ventilated place, away from direct sunlight. Keep container

tightly closed and keep away from fire and heat sources.

Material used in

packaging/containers

Light shielding airtight container.

Technical measures : Comply with applicable regulations.

Storage temperature : Cool and dark place

Revision date: 7/18/2023 SDS code: W3-15 Version: 04

## 8. Exposure controls / Personal protection equipment

| Exposure limit values      |                                                                                                                                                                                                        |

| Exposure limits (JSOH)     | [Ceiling]2mg/m3                                                                                                                                                                                        |
| Exposure limits (ACGIH)    | TWA -,STEL C 2 mg/m3                                                                                                                                                                                   |

Appropriate engineering controls

: Cover up tightly the generation source at the handling place or install local exhaust equipment or overall ventilation equipment. Install safety showers and eye-fountains near a handling place. Clearly indicate the location.

Protective equipment

Respiratory protection : Gas mask

Hand protection : Impervious protective gloves

Eye protection : Protective glasses (general glasses, glasses with side-shields, goggles)
Skin and body protection : Impervious aprons, Impervious work clothing, Impervious long boots

## 9. Physical and chemical properties

Physical state Liquid Appearance Liquid Color yellow Odor Odorless рΗ 10.3 (25℃) No data available Melting point No data available Freezing point **Boiling point** No data available Flash point No data available No data available Auto-ignition temperature Decomposition temperature No data available Flammability (solid, gas) No data available Vapor pressure No data available Relative density No data available Density 1.00 g/cm³ (20°C) Relative gas density No data available Solubility No data available Partition coefficient n-No data available octanol/water (Log Pow) Explosive limits (vol %) No data available No data available Viscosity, kinematic

## 10. Stability and reactivity

Reactivity : No data available

Chemical stability : Stable under normal handling conditions.

Possibility of hazardous reactions : May react with strong oxidizing agents, strong reducing agents and organic

compounds.

No data available

Conditions to avoid : Sunlight, heat. Contact with strong oxidizing agents, strong reducing agents

and organic compounds.

Incompatible materials : Strong oxidizing agents, Strong reducing agents, Organic compounds

Hazardous decomposition

Particle characteristics

products

: Chromium compounds, Sodium oxides

# 11. Toxicological information

The information in this section is based on the "GHS Classification Results" by NITE.

| Acute toxicity (inhalation:dust/mist)                | No classification                                              |
| Skin corrosion/irritation                            | No classification                                              |

| Water                         |                   |  |
|-------------------------------|-------------------|--|
| Serious eye damage/irritation | No classification |  |
| Respiratory sensitization     | No classification |  |
| Skin sensitization            | No classification |  |
| Germ cell mutagenicity        | No classification |  |
| Carcinogenicity               | No classification |  |
| Reproductive toxicity         | No classification |  |
| STOT-single exposure          | No classification |  |
| STOT-repeated exposure        | No classification |  |
| Aspiration hazard             | No classification |  |

# 12. Ecological information

| The information in this section is based of          | on the "GHS Classification Results" by NITE. |
|------------------------------------------------------|----------------------------------------------|
| As a product                                         |                                              |
| Hazardous to the aquatic environment,                | No classification                            |
| short-term (acute)                                   |                                              |
| Hazardous to the aquatic environment,                | No classification                            |
| long-term (chronic)                                  | No data available                            |
| Persistence and degradability                        | No data available                            |
| Bioaccumulative potential  Mobility in soil          | No data available  No data available         |
| Ozone                                                | classification not possible                  |
|                                                      | Classification flot possible                 |
| Potassium chromate                                   |                                              |
| Hazardous to Aquatic Environment -                   | Category 1                                   |
| Acute Hazard                                         |                                              |
| Hazardous to Aquatic Environment -<br>Chronic Hazard | Category 1                                   |
| Persistence and degradability                        | No data available                            |
| Bioaccumulative potential                            | No data available                            |
| Mobility in soil                                     | No data available                            |
| Hazardous to the ozone layer                         | classification not possible                  |
| Sodium hydroxide                                     |                                              |
| Hazardous to Aquatic Environment -                   | Category 3                                   |
| Acute Hazard                                         |                                              |
| Hazardous to Aquatic Environment -<br>Chronic Hazard | No classification                            |
| Persistence and degradability                        | No data available                            |
| Bioaccumulative potential                            | No data available                            |
| Mobility in soil                                     | No data available                            |
| Hazardous to the ozone layer                         | classification not possible                  |
| Water                                                |                                              |
| Hazardous to Aquatic Environment -<br>Acute Hazard   | No classification                            |
| Hazardous to Aquatic Environment -<br>Chronic Hazard | No classification                            |
| Persistence and degradability                        | No data available                            |
| Bioaccumulative potential                            | No data available                            |
| Mobility in soil                                     | No data available                            |
| Hazardous to the ozone layer                         | classification not possible                  |

# 13. Disposal considerations

Ecology - waste materials With the detail information of the waste, subcontract its disposal to a

waste disposer authorized by a Prefectural Governor.

Contaminated container and

packaging

Empty the packaging completely prior to disposal.

Empty containers should be taken for recycle, recovery or waste in

accordance with local regulation.

## 14. Transport information

#### International Regulations

Transport by sea(IMDG)

UN-No. (IMDG) Not applicable Proper Shipping Name (IMDG) Not applicable Packing group (IMDG) Not applicable Transport hazard class(es) (IMDG) Not applicable

Air transport(IATA)

UN-No. (IATA) Not applicable Proper Shipping Name (IATA) Not applicable Packing group (IATA) Not applicable Transport hazard class(es) (IATA) Not applicable Marine pollutant Not applicable

Regulations in Japan

Regulatory information by sea Not applicable Regulatory information by air Not applicable

Special transport precautions When transporting, load containers so that they do not tip over,

damage, drop or collapse. Make sure there is no leak in containers.

## 15. Regulatory information

**National law** 

Industrial Safety and Health Law Harmful Substances Whose Names Are to be Indicated on the Label

(Law Art.57, Para.1, Enforcement Order Art.18 Item 1, Item 2,

Attached Table No.9)

Notifiable Substances (Law Art.57-2, Enforcement Order Art.18-2

Item 1, Item 2, Attached Table No.9)

Chromium and its compounds (Ordinance number: 142)

Japanese Poisonous and

Deleterious Substances Control Law

Deleterious Substances (Designated Order Art.2)

Chromates compounds and preparations containing it. (except for

preparations which contain 70 % or less of lead chromate)

Hazardous Substances (Act, Art.2, Enforcement Order Art.2, Water Pollution Prevention Law

Ministerial Ordinance to Provide for Effluent Standards, Art.1) Designated Chemical Substances (Law Article 2, Paragraph 4,

Enforcement Order Article 3-3)

Fire Service Law Not applicable

Air Pollution Control Law Hazardous Air Pollutants, Priority Substances (Central Environment

Council Report No. 9)

Foreign Exchange and Foreign

Trade Control Act

Export Trade Control Ordinance appendix 1-16

Road Act Restriction for Vehicle Traffic (Enforcement Order Art.19-13,

Publication of Japan Highway Pablic Corp.)

Waste Management on Public

Cleansing Law

Specially Controlled Industrial Wastes (Act Art.2, para 5, Enfothment

Order Art.2-4)

Waterworks Law Hazardous Substances (Act Article 4 paragraph 2), Standard for

Water Quality (Ministry Order No.101 of 2003)

Substances for Water Quality Standard (Act Art.12-2 Para.2, Sewerage Law

Enforcement Order Art.9-4)

Japanese Pollutant Release and Transfer Register Law (PRTR Law)

Not applicable

Labor Standards Act Chemical Substances Causing Occupational Illnesses (Act Art.75,

Para.2, Ordinance Attached Table 1-2, Item 4-1, MHLW Nortification

Carcinogens (Act Art.75, Para.2, Ordinance Attached Table 1-2, Item

Soil Contamination

Designated Hazardous Substances (Act Art.2 Para.3, Enforcement Countermeasures Law

Order Art.1)

Other information

The SDS is copyrighted material of Havashi Pure Chemical Ind. Ltd. This Safety Data Sheet is intended to be provided for business operators who handle chemical substance products of the relevant product and is not intended to assure safety in any way. The Safety Data Sheet does not verify all the information on the applicable chemical substance in the present time. With the recognition in that unknown danger constantly exists in the relevant chemical substance, the product shall be used in the principle of self-responsibility of the user with the highest priority to safety from transport and unpacking to disposal. When the relevant chemical substance is used, the user him/herself shall collect safety information and shall investigate laws and regulations at the place, organizations, countries, etc. where the substance is actually used and give the highest priority to them. The Company shall take no responsibility for investigating state and local regulations and the user shall handle this problem on his/her own responsibility. In the event that SDS in Japanese and SDS translated into other languages exist, the document described in Japanese is prior to all other documents whether or not there is any difference in contents, and documents in other languages shall be references.
